# ADDRESS.

ON the publication of this, the twelfth edition of our Directory of Preston and District, we deem it our duty to tender sincere thanks for the generous support accorded to us in our efforts in producing a work which, we trust, will be fiund worthy of the appreciation of our mumerous subscribers and of the public generally. The whole of the extensive district has beem personally visited by our Agents, and the information revised and correcred on the spot, thus ensuring accuracy as far as is possible in a work of this nature.

The arrangements of the Directory are similar to those of previous editions, viz. : for Preston—Street, Classified and Alphabetical Directories and Street List ; the telephone numbers of sudscribers to the P.O. Telephones are appended to the names in the alphabetical portion. In the historical sketch of Preston all the recent principal improvements are noticed, and full particulars are given of the County, Corporate, Education, and other officials.

The various townships are described at reasonable length, and include descriptions of the various local authorities, with their members, and the Parliamentary Division, County Council Division, and Poor Law Union in which each parish is situated.

During the preparation of the work a careful revision has been exercised, so that we have been able to note the most recent changes almost up to the date of issue.

We are sorry that the publication of this Directory has been so long delayed, but the reason is the shortage of labour caused through the War.

Is a county, a parliamentary, and municipal borough and parish, situated on the River Ribble, in the hundred of Amounderness, County Palatine of Lancaster. It is a station on the London and North-Western and Lancashire and Yorkshire lines of railway, 31 miles from Manchester, 28 from Liverpool, and 210 from London. It was incorporated by Henry I., A.D. 1100, and subsequent charters conferring Royal grants, privileges, and free customs were given by Henry II., 1179; John, 1199; Henry III., 1227; Henry III., 1252; Edward III., 1328; Richard II., 1379; Henry IV., 1401; Henry V., 1414; Henry VI., 1425; Philip and Mary, 1557; Elizabeth, 1566; Charles II., 1662-3; Charles II., 1684-5; George IV., 1828.

The Burgesses are entitled by the Charter of Henry II. to have a Guild Merchant, with the usual franchises annexed, of safe transit through the Kingdom, exemption from toll pontage, and stallage, liberty to buy and sell peaceably; and power to hold a Guild for the renewal of freedom to the burgesses, the confirming of bye-laws, and other purposes. This privilege is still made the occasion of great festivity.

For a long time after their first institution the Guilds were held at irregular periods, but they have now for more than three centuries been uniformly celebrated every 20th year, commencing on the Monday next after the decollation of St. John. The last was held in 1902, lasting a week, the Guild Mayor being the Right Hon. The Earl of Derby, K.G.

Preston had two monastic institutions: first an ancient hospital, dedicated to St. Mary Magdalene, mentioned in the Lincoln taxation of 1291; and second, a Franciscan convent of Grey Friars, built by Edmund, Earl of Lancaster, in 1221. The first of these religious foundations stood on the eminence now occupied by Tulketh Hall, in Ashton; and the latter stood a little to the west of Friargate, to which street it gave the name. The building afterwards became a residence and next a house of correction, and continued as such till the prison at the east end of Church Street was erected in 1790.

For a long time a strong feeling existed that the navigation of the RIBBLE should be in the hands of the Corporation, and that the rights and works of the Ribble Navigation Company should be purchased.

This was done in March, 1883, for the amount of £72,000, for which sum a valuable farm in Freckleton was also included. In the same year an Act of Parliament was obtained empowering the Corporation to complete the purchase, and to carry out the works for the new scheme which included the deepening and diversion of the river, the construction of docks and other works, and the extension of the borough. The ceremony of laying the first stone of the Dock, named the ALBERT EDWARD DOCK, was performed with great *eclat* in July, 1885, by H.R.H. the Prince of Wales. The dock is 40 acres in extent, and is 600 feet wide, and 3,150 feet long. The lock is 550 feet long, and is divided by a pair of gates of 325 feet from the dock gate. There is a lock basin 300 feet wide and 750 feet long, and its gates 66 feet wide. The dock was opened on June 25th, 1892, by H.R.H. the Duke of Edinburgh. Since then important public improvements have been made, amongst which may be noticed :—Additional warehouses have been erected ; coaling and other cranes, worked by hydraulic power, for the rapid loading and discharging of goods and minerals have been provided ; several miles of railway and sidings to facilitate the prompt dispatch of goods inland, and other requirements of a modern port, have been provided ; the total expenditure on dock and navigation works now reaching £1,406,295. The progress of trade may be seen as follows, viz. :—That, whereas in 1893 the number of vessels entering the port was 537, importing 68,674 tons and exporting 25,065 tons, that is 93,739 tons of imports and exports combined, in 1915 the number of vessels had increased to 1,296, the imports being 470,344 tons, and exports 209,956 tons, amounting when combined to 680,300 tons.

Extensive improvements were made in the centre of the town, when the clearing of old property and the formation, paving, &c., of new streets involved an outlay of over £50,000 by the Corporation. All the old property lying between the old Market Place and the Covered Market, and bounded by Lancaster Road on the north and Anchor Weind on the south, were cleared away. In this operation a number of Inns and Hosteleries, many of them of historic reputation, were demolished, viz. :—The George Inn, Friargate ; Farmers' Arms, Back Lane (new Hotels bearing these signs have been erected, one at each end of the fine new block of buildings forming the west side of the new street now called Market Street) ; Derby Arms, Back Lane ; Virgins Inn, Anchor Weind ; White Bull, Golden Ball, and Swan Inn, New Street ; Grecian Inn, Lord Street ; Cross Keys, Market Place ; Wheat Sheaf, Ram's Head, and White Hart, Gin Bow Entry ; Shoulder of Mutton, and Bull and Butcher, Lancaster Road. The clearance above named has effected a much-needed improvement in the widening of Friargate at its junction with the Market Place, and the formation of a good thoroughfare to Lancaster Road on the north side of the Harris Library.

On the site lying between the Town Hall and Lancaster Road, a block of handsome buildings has been erected, comprising two hotels, shops, offices, &c., with arcades running transversely through the block.

THE POST OFFICE is situated in the Market Place, facing the Town Hall. It was opened in 1903, and is a handsome and imposing building, the exterior walls being of Storeton stone. The designs were supplied by H. Tanner, Esq., of H.M. Office of Works, Whitehall, and the contractors were Messrs. Thornton, of Liverpool. The offices of the Customs and Excise, Old Age Pensions, National Insurance, and Income Tax departments are also installed in the building.

SANITARY.—Extensive intercepting and other sewers have been completed, and also a pumping station, by which the sewage of the town, instead of flowing into the river, is now conveyed to the farm at Freckleton, and purified by irrigation and filtration. Since 1892 over £75,000 has been spent in this direction.

SESSIONS HOUSE, completed in 1903, is an imposing structure, and is in harmony with the Harris Free Library, to which it is adjacent. It is in the English Renaissance style of architecture, and was designed by Mr. Henry Littler, the County Architect. A graceful tower rises from the main building to a height of 179 feet. The Sessions Courts, of which there are two, are situated on each side of the Assembly Hall, each Court being 49 feet by 39 feet and the height about 32 feet. There are also a Magistrates Room, Grand Jury Room, Barristers Library, Solicitors Room, Witnesses Room, 11 Cells, Dining Room, &c. The exterior of the building is of Longridge stone, and the foundation stone was laid by the Earl of Derby on the 22nd February, 1900. The total cost of the building including site was about £90,000. The contractors were Messrs. David Tullis & Sons ; Mr. Thomas Cottam, joinery work ; Messrs. Cooke & Son, plastering ; Mr. Thos. Nickson, sen., flagging and slating ; and Messrs. James Walmsley & Co., plumbing and painting—all of Preston. This has superseded the old Court House adjoining the prison, which was erected in 1827. The quarter and intermediate Sessions for the hundreds of Amounderness, Blackburn (except the borough), and Leyland are held here. H. W. Worsley-Taylor, Esq., K.C., is chairman of the Court. Preston is within Circuit Number Four. The Judge of the Court is His Honour Judge Sturges, K.C.

BOROUGH COURT OF RECORD, for adjudicating cases involving debts to any amount, and libel and slander actions, is held every third Friday, Francis H. Mellor, Esq., K.C., is judge and recorder, and Alfred Howarth, Esq., the Town Clerk, is the registrar.

Formerly the staple trade of the town was the manufacture of linen, which has long been superseded by that of cotton fabrics. It was in the year 1768 that Richard Arkwright introduced the "Spinning Jenny," destined to cause a complete revolution in the production of cotton fabrics. The first cotton mill was built by Messrs. Collinson and Watson, in 1777, at the bottom of Friargate, but the trade made very little progress here till the year 1791, when the late John Horrocks came to reside in the town, and commenced the muslin manufacture in a small warehouse at Syke Hill. He was the originator of the great firm now bearing the name of Horrockses, Crewdson, & Co., Ltd. There are now employed in the production of cotton goods over 25,000 persons. On the Strand Road two new important industries have

The municipal borough covers an area of 4,029 acres, and includes besides the ancient townships of Preston and Fishwick, the hamlet of Ashton, and portions of Ribbleton, Brockholes, and Penwortham. This area, by an order of the Local Government Board, under the Local Government Act, 1894, is now constituted one township, called the Township of Preston.

The population in 1881 was 96,524; in 1891, 107,864; and in 1701, 112,982. Population 1911, 117,113. Estimated population, July, 1915, 111,936. The rateable value in 1881 was £289,544; in 1891, £340,903; and now £478,000.

The number of burgesses on the roll for 1914-15 is 24,953, and the number of Parliamentary Electors is 21,007, including those of Fulwood (824). The edifices appropriated to religious worship in Preston are numerous, and many of them are large and elegant structures. The ANCIENT PARISH CHURCH is situated in Church Street. It is of great antiquity, having been erected in the first century after the establishment of the Christian religion in this country. It was originally dedicated to St. Wilfred, Archbishop of York, but at the Reformation it was re-dedicated to St. John. The edifice was rebuilt in 1770, and in 1854-5 it was restored in the decorated English style of architecture from the designs of Mr. Shellard, architect, of Manchester, at a cost of £9,500. The building in 1885 underwent considerable improvements by the addition of vestries, &c., at a cost of over £2,000. In 1903 a handsome chancel screen was erected to the memory of Dr. Wilson Fox. The screen, which is the work of Messrs. J. W. Slinger & Sons, Frome, is of hammered iron, mediæval in character, and is an acquisition to the church, with the architectural features of which it is in perfect harmony. The church consists of nave, north and south aisles, chancel, trancepts, and graceful spire. All the windows are of beautifully stained glass, the east window, in particular, being handsomely executed, and was presented by the late Sir H. Bold Hoghton. In the tower is a peal of eight bells. The church contains 1,100 sittings, 250 of which are free. The benefice is a vicarage, of the annual value of £810, in the patronage of the Hulme's Trustees, and held by the Rev. Hercules S. Butler, M.A. The population of the parish in 1913 was 1,929.

ST. GEORGE'S CHURCH, situate in Chapel Walks, was erected in 1726. It was restored in 1844, when the building, which was of brick, was encased with stone, and in 1848 a new chancel was added. The church was in 1855 almost entirely rebuilt, at a cost of between £5,000 and £6,000, of which £3,000 was given by the trustees of the late E. R. Harris, Esq., whose father was the incumbent of St. George's for many years. Only the walls of the original building and a small portion of the chancel now remain. The interior was completely rearranged, and the nave and aisles were seated with open benches, in place of the square pews formerly in use. The general scheme of decoration, commenced some time ago, was completed, and the interior of the church now presents a fine illustration of the highest form of ecclesiastical art. The whole of the work, both stained glass and decoration, was designed and carried out by Messrs. Shrigley and Hunt, of Lancaster and London. As a memorial to a former Vicar, the Rev. Charles H. Wood, five beautiful stained glass windows were erected in September, 1900. They are placed on the south

The benefice is a vicarage, of the annual value of £365, in the patronage of the Vicar of Preston, and held since 1910 by the Rev. J. H. C. Morson. Population in 1913, 1,124.

HOLY TRINITY CHURCH, Trinity Square, is a fine Gothic building, erected in 1814-15, at a cost of nearly £10,000. At the west end is a handsome tower, and the east window of five compartments is filled with stained glass. The interior, in 1897, was thoroughly renovated and other improvements effected, including the installation of the electric light. Three beautiful electroliers light the main aisles. A chancel and choir stalls have been built. The sanctuary has been extended, and has otherwise undergone much alteration and beautifying. The whole of the alterations were effected under the supervision of Mr. Frceman, the diocesan architect. The Church contains 1,250 sittnigs, all of which are free. The benfice is a vicarage, of the annual value of £393, in the patronage of the Vicar of Preston, and held by the Rev. William Binner, M.A. Population in 1911, 1,976.

It is a stately Gothic structure, from designs by Messrs. Rickman and Hutchinson, architects, of Birmingham. A tower and spire were erected in 1852, at a cost of £1,000, bequeathed by Thomas German, Esq. A chancel and an organ chamber were opened in the same year ; and an organ, costing about £1,200, was persented by W. P. Park, Esq. In 1906 the church was restored, two windows were fixed in the chancel, and electric light and heating apparatus were installed, at a cost of £1,300. The number of sittings is 1,200, of which 660 are free. The benefice is a vicarage, of the annual value of £396, in the patronage of the Vicar of Preston, and held by the Rev. T. F. B. Twemlow. Population in 1913, 7,279,

ST. PAUL'S CHURCH, Park Road, is in the Early English style of architecture. It was erected in 1825, by the same means as St. Peter's, at a cost of £6,512 exclusive of site, which was presented by Samuel Paul Shawe, Esq. The designs were supplied by Messrs. Rickman and Hutchinson, and the foundation stone was laid October 21st, 1823. In 1882 the church was enlarged and renovated, at a cost of £2,500. The additions consist of a new chancel, vestry, organ chamber, and baptistry, the latter presented by John Huntington, Esq., of Cleveland, Ohio, U.S.A., but a native of Preston. The large east window, representing the Ascension, was given by James Hall, Esq., of Preston. In 1888 several improvements were effected in the interior, the whole having been beautifully decorated. The old seats in the north side were replaced by modern pitchpine benches ; the gallery was entirely reseated, and a new reredos, elaborately carved

The exterior walls of the church being the only portions of the original building remaining, were, in 1892, renovated, the materials used being terra cotta and stone. It consists of nave, aisles, chancel, trancepts, baptistry, vestries, and organ loft. At the south end an elegant spire rises to a height of 114 feet, and on its summit is a gilt cross, five feet in height. The cost of the erection was £8,000, of which sum £1,030 was collected in small contributions, by 62 collectors, from about 1,500 poor Catholics of Preston, as appears by an epigraph on a marble tablet placed against the wall in the western aisle. It was enlarged in 1858, at a cost of £3,000. The church will seat 1,000 persons. Again, in 1886, other improvements took place, including the erection of new chapels, new confessionals, &c., at a cost of about £3,000. The chapels are dedicated to the Sacred Heart, Our Lady of the Most Holy Rosary, and St. Joseph. The reredos, which cost £400, contains niches, in which handsome statues are placed, and several of the windows are of stained glass. Again, in 1896, further extensive improvements took place, including the decoration of the interior, the re-seating of the Church, and the installation of the electric light, the whole costing £2,000. A new organ, by Messrs. William Hill & Son, of London, costing over £1,000, was opened Whit-Sunday, 1899, and a beautiful *Pieta*, executed at Rome, of Carrara marble, was unveiled at Easter, 1899. It cost £250, which was borne by four members of the congregation. Further improvements were made in 1912-13. On the west side of the tower a new Baptistry was built, with groined roof in bath stone, and on the east side a Chapel, also with groined roof, was erected in honour of Our Lady of Lourdes, in which there is a shrine of red carved sandstone. The Chapel contains a marble statute of the Immaculate Conception. Peter and Paul, carved in stone, were placed in niches of the exterior walls

ST. AUGUSTINE'S CHURCH is pleasantly situated at the head of Vauxhall Road, near Frenchwood. The foundation stone of this edifice was laid in November, 1838, and the church was opened for divine worship July 30th, 1840, the cost of its erection being about £5,000. In 1878 a new sanctuary was added to the church, and other alterations affected; 1890 being the Jubilee year of this church, the whole building was re-cast. It was necessary that a new roof should be put on, and it was decided that the whole of the fabric should be dealt with at the same time. A new front, 60 feet wide, with two side towers, 20 feet square and 70 feet high were added. The towers are surmounted by lanterns, octagonal in plan, dome topped, and terminating in gilt balls and crosses, and 96 feet from the ground. A new main cornice was run round the entire building. The old Ionic portico was restored and re-erected, and the main building raised 12 feet. In the interior, which was very considerably lengthened and heightened, massive marble columns support the entablature, which, carried round the church, unites nave and chancel into one. The ceiling is deeply sunk with moulded coffers. Beyond the chancel arch is a dome-like ceiling, from which light is thrown downwards upon the chancel. The Roman altar, which was erected in 1878, has been left untouched. The old gallery was removed, and replaced by a new one, divided by three lofty arches from the body of the church. Here is placed the fine organ by Mr. H. Ainscough, of Preston, in 1888, at a cost of £1,000, The whole of the interior has been richly decorated, and the fine paintings round the sanctuary, by Rossi, and the Stations of the Cross, by Mayer & Co., have been re-set. The architects were Messrs. Synott & Powell, and the contractor for the work was Mr. William Hothersall, of Preston. In 1909 two new altars were added to the church, from the designs of Mr. Hill, one in honour of St. Gerard Majella, the other in honour of St. Anthony. They are carved in English oak, and are the work of Mr. Wm. Baines, of Church Street, Preston. The altars are a gift from the parishioners to commemorate the 25th year of Canon Cosgrave's Rectorate. The church contains 950 sittings. The Catholic population is 5,000. Very Rev. Lawrence Canon Cosgrave, M.R., Rector; Revs. Francis McKenna, Francis Rawlinson, and Francis Moah, pastors.

ST. WALBURGE'S CHURCH, Maudland.—This magnificent edifice occupies a commanding position, and its beautifully-tapering spire is a conspicuous and attractive object for miles round Preston. The foundation stone of the building was laid on Whit-Monday, in 1850, by the late Very Rev. Father Cobb, S.J., and it was opened on the 3rd August, 1854. The designs were supplied by Mr. Joseph A. Hanson. The open roof of the church is in one span, having the arched truss principles carefully poised in their own structure, and resisted in their outward pressure by massive buttresses. The ridge of the roof rises to the height of 84 feet from the floor of the church, and the steeple

consists of a tower in four stages, surmounted by its graceful and lofty spire rising to a height of 303 feet. At the eastern end there is a circular window of great beauty, 22 feet in diameter. The noble chancel was added in 1872, at a cost of about £4,000. It was designed by Mr. Nichol, of London. In 1903 a handsome and commodious Presbytery was erected from a design by Mr. J. H. Morgan, of Preston, at a cost of about £4,000, the contractor being Charles Walker, also of Preston. In 1907 the church was renovated, and electric light installed, at a cost of nearly £3,000 ; and in 1908 further improvements were made. The weather cock was taken down from the spire, re-gilded and re-adjusted, and a new earthplate put to the lightning conductor, the total cost being about £150. In 1911 two new Silver Sanctuary Lamps were placed in position, the gift of Mrs. Hines, a deceased parishioner, in May, 1912, four Statues of Saints, and a *Pieta*, in memory of five deceased Superiors of this Church, the gift of a revered parishioner, and in 1914 handsome new marble Altar-rails were erected in memory of the Fathers who served on this mission during the previous 60 years. The church will seat 1,300 persons, and the Catholic population is 4,500. Revs. Albert Kopp, S.J. (Rector), Jph. Murphy, S.J., F. Smith, S.J., J. The CHURCH OF THE ENGLISH MARTYRS, Garstang Road, was erected in 1867, at a cost of about £15,000 ; and in 1888 it was considerably enlarged, the additional length bringing out the noble proportions of the church in their grandeur. The additions of the church consist of two bays to the nave and aisles, transept and transept chapels, a committee or choir room, a chancel two confessionals, two large sacristies, and a finely-arranged corridor or cloister which runs round the apse, down the whole north side of the church, and communicates with the presbytery. The chancel is apsidal in form, 38 feet long by 26 feet 6 inches wide. The high altar is of beautiful workmanship. It is approached by three steps of French alabaster and marble. On a plinth of Devonshire marble are four double bases of alabaster, with eight marble columns surmounted with capitals. The tabernacle is of alabaster richly carped, with crocketed gablet surmounted with the pelican. On each bay of the apse there are two-light windows, filled with stained glass. The HARRIS INSTITUTE, in common with many other Technical schools, was originally a Mechanics' Institution, founded as far back as 1828, and known as the "Preston Institution for the Diffusion of Knowledge." For many years classes were held in connection with the Science and Art Department with a fair amount of success, but it was not until the Session of 1881-2 that the rapid development of the work of the Institute took place. The late E. R. Harris, Esq., of Preston, bequeathed a sum of £300,000, and three important institutions were established under the provisions of his will, namely, the Harris Public Library and Museum, the Harris Orphanage, and the

Harris Institute. A sum of £40,000 was set aside for the purpose of the latter institution, to establish and carry on an "Institute of Literature, Art, Science, and Technical Education." To give effect to this the old Mechanics' Institution was dissolved under the provisions of "The Literary and Scientific Institutions Act, 1854," all assets and liabilities being handed over to the new governing body of the present Institute.

In the Session of 1881-2, the number of pupils on the register was 396, whereas in 1915-16 the number amounted to over 5,000. The classes are divided into Science, Art, Technical, Engineering, Domestic, Economy, Agriculture, and Miscellaneous.

In 1884 the accommodation was utterly inadequate to meet the large increase in the number attending the various classes, and property was purchased adjacent to the Institute, and an excellent theatre, chemical laboratory, and additional class-rooms were erected. The laboratory and lecture hall were fitted up under the supervision of Sir Henry Roscoe, and are consequently all that can be desired. In 1887, the number of individual students then being 1,307, the Harris Trustees made a further grant of £30,000. A supplementary scheme was framed for the application of the fund, and under its provisions £10,000 was authorised to be applied towards building and furnishing a Technical School, the remaining £20,000 being added to the endowment fund. Shortly afterwards the Council made an application to the Corporation of Preston, and this body yery generously provided a suitable central site, containing 5,879 square yards for the erection of the Technical School, the gift being made in celebration of the late Queen Victoria's Jubilee. The Council has power to grant two scholarships, to be called the "Harris Scholarship," of the annual value not less than £45 each, to be awarded on competitive examination, and open to all students who have been attending the classes for not less than two years immediately preceding the examination, and tenable at any college or place of higher education. Free Scholarships and a book prize are also awarded to all students who obtain passes in recognised Course Subjects at the examinations in connection with the Board of Education, the City and Guilds of London Institute, the Society of Arts, and the Union of Lancashire and Cheshire Institutes. Mr. Edmund Dickson is the President of the Institute, and Lieut-Col. T. R. Jolly, V.D., Principal and Secretary.

The school is open to all, and students resident within the administrative County of Lancaster are given instruction, and receive in addition a maintenance allowance while in attendance. A Special Elementary Course for boys of 13 (on leaving the elementary school) has recently been arranged. The following subjects are taught: Agriculture, chemistry, biology and geology. veterinary science, engineering, surveying, bookkeeping, physics, mathematics, drawing, and woodwork.

TECHNICAL SCHOOL.—The design for the Technical School was supplied by Messrs. Cheers, Aspinall, & Smith, of London and Blackburn. It contains a shed for weaving and designing, with space to accommodate 80 hand-looms and 20 power-looms ; a preparation room for warping, winding, &c. ; a room for drawing and colouring designs of patterns, and for cloth analysis ; a textile museum ; a shed to hold a complete set of machinery to show the processes of cotton spinning ; a lecture room to accommodate 200 students, mainly for classes in weaving and spinning ; rooms for classes in mechanics and engineering, and machine and building construction ; two rooms for apparatus and designs ; one room each for carpentry and joinery, for appliances and practical work in the plumbing trade, and for instruction in practical engineering. A few years ago large additions were made to the equipment in the Electrical and Mechanical Engineering Department. Owing to the generosity of the Trustees of the late John Billington Booth, Esq., a sum of £2,300 has been devoted to this object. A compound engine for instructional purposes, and the latest appliances and apparatus in both branches were purchased. Messrs. Dick, Kerr, &. Co., have also very generously contributed a sum of £500 towards the equipment of the Electrical Laboratory. Day classes in electric and mechanical engineering, textile, Junior Technical and Commercial subjects are now being held and attended by about 100 students. There are four extra class-rooms in the school, each to accommodate 80 students, and the necessary lavatories, cloak-rooms, offices, &c. The cost of the school, inclusive of fittings, apparatus, &c., was about £17,000. The school was opened by the Right Hon. the Earl of Derby, K.G. (who was accompanied by the Countess of Derby) in September, 1897, and classes were immediately opened and attended by large numbers of students interested in the various trade subjects. Mr. Edmund Dickson is president, Mr. H. Bell, J.P., Chairman of Committee, and Lieut-Col. T. R. Jolly, V.D., Principal and Secretary.

SCHOOL OF DOMESTIC SCIENCE.—This school, which occupies the site of the old Institution for the blind, has become one of the principal training schools in the kingdom. A Day Training School for granting Diplomas for giving instruction in Domestic Science is attached to the Institution, and is attended by over 50 students. A House has recently been rented in Cross Street, adjoining the School, for the training of Elementary School Children in Housewifery. Brown, M.B., M.A., chairman ; Miss Ascroft, hon. secretary to the Training School ; and Lieut.-Col. T. R. Jolly, V.D., principal and secretary.

The HARRIS FREE LIBRARY AND MUSEUM is a magnificent Grecian building, the chief features of which are simplicity and symmetry of plan, truthfulness of expression, and the execution of the work is characterised by great refinement of detail. The site for the

building was given by the Corporation, and cost over £30,000, and the Corporation have further undertaken the maintenance of the institution in perpetuity to the extent of the rate of 2d. in the pound. The site is one of the most elevated parts of Preston, and the building itself is of a form eminently fitted to crown an eminence. The square massive lantern is a conspicuous feature for miles round. The cost of the structure was £80,000, granted from the bequest of the late Mr. E. R. Harris by the Harris Trustees. An additional sum of £30,000 was devoted out of the funds of the Harris Trust for the furnishing of the Harris Reference Library, and the provision of such examples of the fine and industrial arts and objects of scientific interest as might be thought immediately conducive to the higher educational purposes of the institution.

The pediment of the building is considered by competent judges to have only two rivals in England—that of St. George's Hall, and the academic one of the British Museum. The statuary group, all of heroic size, is illustrative of the most brilliant period of Greek culture, and is the work of Mr. E. Roscoe Mullins. On the apex and at the two lower angles of the pediment are what are termed acroteria—ornaments which are often met with in buildings of antiquity. At the rear of the apex of the portico there is another acroteria. These symbolic ornaments were modelled and in part carved by Mr. Rowland Rhodes, who also executed the full-size models of the whole of the decorative features of the exterior. Other notable external features of the building are the inscriptions. First, the Dedication, "To Literature Arts, and Science"; next, a Declaration, "On earth there is nothing great but man, in man there is nothing great but mind"; third, a Precept, "Reverence in man that which is supreme"; and lastly, a Promise, "The mental riches you may here acquire abide with you always."

Beautiful externally, the building is none the less attractive in its interior, the treatment of the Central Hall, with its various galleries from top to bottom, being very imposing, including a magnificent series of Assyrian and Greek friezes and a splendid collection of statuary. The Museum Galleries and Picture Galleries are arranged round the sides of the Central Hall and staircase, one side being devoted to the fine arts, the corresponding side to natural history and physics, and the remaining side between these to the department of general archæology, ceramics, and the finer kinds of industrial art, and illustrations of ethnology. The collection of pictures and other objects of art bequeathed by the late Richard Newsham, Esq., valued at £40,000, are housed here. In addition to the finely representative exhibit of pictures of the Victorian period of British Art, a carefully selected collection of examples of contemporary painting in oil and water colour has been added by purchase from the resources provided by the bequest funds. The basement of the building comprises librarian's workroom, museum storage, heating and lighting departments, &c. The ground floor comprises lending library, reading room, news room, &c., and collections of models, and examples connected with the industrial arts. The principal floor comprises the reference libraries (including the Shep-

herd Library) and patents library, entrance hall and staircase, and museum of casts and reproductions from the antique ; and the upper floor comprises the museum, picture galleries, central hall and staircase. The arrangement of bookcases provides shelving for the following number gf volumes :—Lending Library, 30,350 vols. ; library of patents, 20,000 vols. ; the Harris Library, for reference purposes, 49,289 vols. ; the Shepherd Library, 14,186 vols. ; total, 113,825 vols.

The Libraries and Museums Act was adopted in 1878, and the library, reading room, and news room were opened 1st January, 1879, in the large and handsome ground floor of the Town Hall, and from there was transferred to the present building on its opening. The number of books now placed is about 71,000. The issue of books for home reading exceeds 160,000 volumes annually, and the reading room has a daily attendance of 3,000 visitors.

The foundation stone of the building was laid on September 5th, 1882, by the Earl of Lathom, and the opening ceremonial took place in October, 1893, by the Earl of Derby, but the actual opening was on the 1st January, 1894. It stands on the site of the old Town Hall, on the south side of the Market Place. It is built of Longridge stone, and is profusely enriched with shafts of polished red granite from Aberdeen. The south front is carried on massive granite columns, forming an arcade under the front part of the building. This is covered with a series of groined arches springing from the richly-carved caps of granite columns. The Guild Hall is a noble apartment, 82 feet by 54 feet, and 48 feet high. The chief entrance to it is from Cheapside, by a noble staircase of lime-stone, with ornamnetal balustrades of wrought and cast ironwork. It has accommodation for about 1,000 people. The Council Chamber is on the northern side of the building, and is lighted by seven windows of two-light compartments. The doorways and arches to the vestibule and landing are executed in Corsham stone. The entrance from the Market Place, by a porch and corridor, gives access to the offices of the Town Clerk and Borough Treasurer, and in the portion of the building formerly occupied by the Free Library are the offices of the Borough Surveyor and Borough Rate Collector. The large hall on the ground floor is 147 feet by 63 feet, and is estimated to seat 2,105 persons, for whom seven exits are provided. The galleries and balcony are calculated to hold an additional 1,300 persons, and there are four separate entrances and exits. An orchestra, having accommodation for 300 persons, is situated at the west end of the hall, and at the rear of the orchestra is a spacious organ chamber, containing the grand organ, presented by the late John Dewhurst, Esq., of Preston, and built by Mr. Wilkinson, of Kendal, at a cost of £3,000. The cost of the building, exclusive of the organ and fittings, was about £16,000, the work being carried out under the supervision of Mr. Benjamin Sykes, of Preston. The RURAL DISTRICT COUNCIL is composed of the Guardians for the Rural District. The Chairman is A. M. Breakell-Moss, Esq., and the Clerk is M. Lutener, Esq. ; *nuisance and building inspector*, Thos. Ashcroft ; *highway surveyor*, A. W. Chrystall.

The WORKHOUSE for the Union is pleasantly situated in Fulwood, and has an imposing appearance. It was erected in 1868, at a cost of about £88,000, including site and furnishing. In 1871 an Infectious Hospital was added, at a cost of £2,594. New casual wards were built in 1872 and 1882, at a cost of £1,900. In the latter year the "Jacson" wing, intended partly for old and infirm men, was built, the cost being £12,000. In 1900 the sum of over £3,000 was expended on the erection of boiler houses, electric light stations, subways, &c. Accommodation is provided for 1,100 inmates. In 1915 a Nurses' Home was completed, with accommodation for 33 nurses, at a cost of £4,713. T. Stephenson, master.

The town is brought into direct railway communication with all parts, and its station is one of the busiest in the kingdom. The first line of railway opened here was the North Union, in 1838, which cost £50,000. On the 26th June, 1840, the Lancaster and Preston line was opened, its cost being £360,000. July 16th, 1840, the Preston and

Wyre Railway was opened, and its cost was about £130,000. The Fleetwood, Preston, and West Riding Junction Railway to Longridge was opened July 1st, 1840, and the capital raised was £30,000. The Bolton and Preston Railway (branch out of the North Union at Euxton) was opened February 14th, 1841; and the Lytham and Blackpool branches of the Preston and Wyre Railway were opened, the former February 16th, 1844, and the latter April 19th, of the same year. The Blackburn and Preston (now East Lancashire) was opened Whit-Monday, June 1st, 1846. The line to Liverpool *via* Ormskirk was opened in April, 1848. The "Preston Extension Line," which joins the North Union at the Preston Station was opened September 2nd, 1850. The West Lancashire Railway, between Preston and Southport, was completed in 1882. It was acquired by the L. & Y. Railway Company in 1897, and now forms part of the system. The *Railway Station*, the joint property of the London & North-Western and Lancashire & Yorkshire Railway Companies, is one of the finest in existance, and cost about £200,000. Its entire length, from the approach in Fishergate to the southern extremity, is 1,800 feet, the two central or island platforms being 1,360 feet long. Between these two platforms there are three blocks of buildings, 40ft. in width and 600 feet in length. The north block contains four spacious waiting rooms, and the central block contains the refreshment rooms, and also the grand dining saloon, 70 feet long, and capable of seating 300 persons. The station is covered to the entire length of the platform, with a light iron girder roof, in three bays. In 1898 operations were begun by the companies with the object of increasing the number of lines and improving and enlarging the station. These works are now completed, adding considerably to the convenience of passengers and officials. On the east side of the station, in Butler Street, are buildings with booking offices, waiting rooms, and platforms, which are specially set apart for the traffic of the Lancashire & Yorkshire Railway Company. In July, 1915 a new entrance, with new Booking and Parcels Offices were opened on the Butler Street level; and an additional through line with platform 942 ft. long was added to cope with the increasing traffic from Blackpool for East Lancashire District.

Connected with the station is a large hotel (Park Hotel) pleasantly situated on East Cliff, overlooking Miller Park, and easily approached from the station by an ornamental bridge.

TRAMWAYS.—The horse tramways in force in Preston from 1879 were superseded in 1904 by the electric overhead trolley system, the first car being run on June 7th. The contractors for the work including cars, permanent way, overhead equipment, and generating plant were Messrs. Dick, Kerr, & Co., of Preston. The power station, Holmrook Road, was erected at a cost of £11,272, the contractor being Mr. T. B. Garnett; the chimney stack, built by Messrs. T. Croft & Sons, cost £911. The station is fitted with two Lancashire boilers, by Messrs. Yates & Thom, Blackburn, with the usual economisers, condensng plant, &c. The engines—two Cole, Marchant & Morley horizontal cross compound, coupled to two multipolar Dick Kerr generators. Total capacity 600 K.W. There are 39 double-deck cars (fitted with Dick,

Kerr motors). The routes and distances are as follows, in each case Lancaster Road :—To Fulwood Barracks (*via* North Road) 2.4 miles ; to Fulwood Barracks (*via* Deepdale Road) 1.6 miles ; Farringdon Park 1.9 miles ; Ashton 2.2 miles ; Penwortham 1.2 miles ; to Ribbleton 2 miles. Borough electrical engineer and tramway manager, Joseph F. Simpson, M.I.E.E. ; traffic superintendent, C. H. Manning.

Amongst the places of public amusement is the THEATRE ROYAL, in Fishergate, opened in 1802, and re-faced and renovated in 1869. It was rebuilt in 1898, and re-opened on November 9th of that year. It is now a beautiful structure interiorly, the decorations, which are of an elaborate character, having been carried out by Mr. Roekbinder. It will accommodate 1,500 persons. The PRINCE'S THEATRE, Tithebarn Street, was built in 1882. It having been destroyed by fire in 1900, a new structure has been erected in its stead, witch has accommodation for about 2,500 persons. The ROYAL HIPPODROME, Friargate, built in 1905, has seating accommodation of 2,000 persons. The EMPIRE THEATRE, Church Street, is built on a commanding site opposite the Parish Church. The scheme extends to and appropriates, with its various entrances and exits, saloons and the Empire Hotel. The elevation to Church Street is an impressive front in the Renaissance style, built of bath stone. The Theatre is commodious, and perfectly equipped, and the decorations are carried out in the rich, bold, and ornate style of Louis XIV. The building is constructed on the cantilever principle, so that a view of the stage can be had from every part of the house. The holding capacity is 3,000. The subsidiary blocks of the scheme, the three shops on the Church Street frontage, the Empire Rooms on the three upper floors, and the Empire Hotel in Tithebarn-Street, are worthy adjuncts of the Theatre. The cost of the whole scheme, including the site, was £65,000 ; the work being carried out from the plans and under the supervision of the Architect and Joint Owner, Mr. Edwin Bush, of Preston. The NEW KING'S PALACE, Old Vicarage, built in 1913, is a fine building, with seating accommodation for about 2,500. THE PALLIDUM, built in 1915 is situated in Church Street, and is a very fine building. It is beautifully fitted up and has accommodation for 900 persons. There are also a number of PICTURE PALACES in the town. FARRINGDON PARK is situated in Ribbleton, on the road to Blackburn, and comprises about 43 acres of land.

The MARKET DAYS are Monday, Wednesday, Friday, and Saturday. FAIRS : A CHEESE FAIR is held on the last Tuesday in each month except December. POT FAIRS are held—March 27th, three days ; August 25th, eight days ; and November 7th, five days. FAIRS FOR CATTLE, HORSES, &C., Tuesday and Wednesday, in first full week of January—Great Saturday Horse Fair ; February 15th, March 15th, 27th and 28th, April 15th, May 2nd Wednesday and 2nd Thursday, August 26th and 27, October 3rd and 4th, and November 6th and 7th. The COVERED MARKET was completed in 1875 by Messrs. W. Allsup & Sons, the cost being upwards of £9,000. The CATTLE MARKET, Brook Street, was opened in 1867, the cost, including the erection of the adjoining hotel, being £29,000. A new Mart was built in 1898, in

which auctions are held fortnightly for store cattle and sheep, and quarterly for horse sales.

DAINTY FINERY AT THE PRESTON STEAM LAUNDRY.

# FULWOOD

THIS township, 1¼ miles from Preston, constitutes one of the prettiest suburbs of the town, and the portion known as Fulwood Park contains many genteel residences. The district is divided into three wards named Central Ward, East Ward, and West Ward. The township for electoral purposes is in the parliamentary borough of Preston, in the Amounderness County Council division, and in the Preston Union, CADLEY also contains several respectable dwellings. The population in 1881 was 3,725, in 1891 4,112, and 1911 6,578; and the rateable value is £34,000. The township is lighted by the Preston Gas Co. The WATERWORKS were established in 1885, the first sod being cut on the 1st July, 1883, by the late Mr. R. Veevers. There is now an ample supply of excellent water, and the adjoining townships of Haighton, Broughton, Barton, Myerscough, Whittingham, Goosnargh, Grimsargh, and Ingol are also supplied from these works. Two storage reservoirs at Barns Fold, on Beacon Fell, about 20 acres in extent, will hold about 80,000,000 gallons, and the Haighton reservoir is capable of holding 5,000,000 gallons. Amongst other improvements recently carried out is a sewage scheme, constructed at a cost of £15,000. CHRIST CHURCH is a neat stone building, erected in 1865, from a design by Messrs. Myres and Veevers, of Preston, at a cost of about £5,000. It contains 430 sittings, of which 140 are free. The benefice is a vicarage of the annual value of £230, in the patronage of the Vicar of Lancaster, and held by the Rev. E. Seymour Scott, M.A. In the township are extensive Barracks, the Union Workhouse, the Harris Orphanage, the Home for the Blind, the Home for the Aged Poor, the Poor Law Certified School, and the Infectious Diseases Hospital, built at a cost of £15,000, already noticed in the account of Preston. COUNCIL SCHOOL, Watling Street Road, was built in 1908, and has accommodation for 160 children.

(*The Directory is included with that of Preston*).

# WALTON-LE-DALE

THIS ancient parochial chapelry is separated from the borough of Preston by the Ribble, and has a large village of its own name near the confluence of the river with the Darwen. The former is here crossed by a substantial stone bridge, erected in 1782. The township is in the hundred of Blackburn, parliamentary division of Darwen, and in the Preston Union. It contains also the villages of BAMBER

BRIDGE, BROWNEDGE, LOSTOCK HALL, GREGSON LANE, HIGHER WALTON, SCHOOL LANE, and PENWORTHAM MILL, with a number of dispersed dwellings. It is the head of a County Council division embracing the townships of Walton-le-Dale, Cuerdale, Farington, Little Hoole, Much Hoole, Howick, Hutton, Longton, Penwortham, and Samlesbury. The township contains 4,683 acres, and its rateable value is £59,798. The principal landowners are Sir James de Hoghton, Bart., R. A. Tatton, and R, Whittaker, Esquires. The former is lord of the manor and coroner ; but the practical duties of this office are performed by his deputy, R. W. Ascroft, Esq. The Petty Sessional Division includes the townships of Walton-le-Dale, Samlesbury, and Cuerdale ; and a Court is held in the Court House, Bamber Bridge, a neat building erected in 1882, and which has superseded the old Court House, in the village of Walton-le-Dale. The East Lancashire section of the Lancashire and Yorkshire Railway has stations at Bamber Bridge, Preston Junction, and Lostock Hall ; and the township participates largely in the staple trade of the county. Its population in 1801 was 3,832 ; 1821, 5,740 ; 1841, 6,659 ; 1851, 6,887 ; 1861, 7,382 ; 1871, 8,187 ; 1881, 9,286 ; 1891, 10,556 ; 1901, 11,271 ; and 1911, 12,352. The township is lighted with gas by the Preston Gas Co., and a supply of water is obtained from a well in the millstone grit, at Brindle and from the Manchester Corporation Works, Thirlmere. A Sewage Scheme for the township has recently been completed at a cost of about £30,000, and the engineer to the scheme was Mr. F. E. Dixon. A Fire Station, erected in 1908, adjoining the Council Offices, is replete with all modern appliances. A Pumping Station for supplying water in the district, was built in 1911, at a cost of over a £1,000. It contains Suction Gas Engines and Pumps which cost £2,337. It will be of interest to know that the water is pumped out of the ground and softened by chemical arrangements through 3 filters, pumped back again and forced into mains for consumers. Mr. Gibbs was engineer, and Mr. Dowbakin contractor. Under the Local Government Act of 1894 the parish is divided into four wards, viz. : Bamber Bridge East, Bamber Bridge West, Walton St. Leonard's, and All Saints', and the DISTRICT COUNCIL comprises 12 members. Its meetings are held in a good building in Bamber Bridge, erected in 1881.

ST. LEONARD'S CHURCH stands on an eminence a short distance above the village of Walton, and its tower is a conspicuous object for miles around. It was originally called Lowe Church, from the Saxon word *lawe*, an elevation. The chancel and tower are of the perpendicular style, and were erected at the beginning of the 16th century, but the church existed in 1190, was rebuilt 1798, and restored in 1864, J. P. Seddon, architect. The nave and trancepts were rebuilt in 1906 at a cost ot about £10,000. The walls externally are of local stone, and internally of beautifully marked Runcorn stone. The roof, seating, pulpit, &c., are of oak. Three stained glass windows have in recent years been put in to the memory of Mr. W. Calvert, Mr. and Mrs. Parkinson, and Mr. T. Snape. A good organ was purchased in 1872, at a cost of £570. The church contains 500 sittings. The benefice is a vicarage, value £300, in the gift of the Vicar of Blackburn, and held

by the Rev. E. J. M. Davies. Population of the parish in 1911, 1,835. The NATIONAL SCHOOL was built in 1835, and classrooms were added in 1869, and again in 1900. In 1870 a SCHOOL was built in School Lane, in lieu of an old one, which stood since 1672. On the 23rd August, 1879, was laid the foundation stone of a CATHOLIC CHURCH, on the road to Higher Walton. It is a handsome Gothic edifice, from designs by Messrs. Pugin & Pugin, of Westminster, and the cost of its erection was about £6,000. It is dedicated to the Blessed Virgin and St. Patrick, and will accommodate about 500 persons. In the sanctuary and over the Lady altar are handsome stained-glass windows. The altar, partly built at this time, was completed in 1907, the original Pugin design being followed. Most of the work is in Caen stone, the canopy being supported by six Greek tinos columns with a tabernacle of alabaster. There are two panels, one depicting the Assumption, and the other the Annunciation. The Church at the same time being decorated, the whole has a most handsome appearance. Mr. B. Sandham, of Preston, was the sculptor. In 1908 an alter, dedicated to the Sacred Heart, was erected at a cost of £210, the donor being Miss S. Jackson, of Preston. Rev. G. Raphael White, O.S.B., rector. New Schools adjoining the Church were erected in 1911, at a cost of £2,700, exclusive of site, this being generously given by Sir Jas. de Hoghton. There is accommodation for 200 children. The WESLEYANS have a CHAPEL in Walton village, erected in 1882, which has superseded an older building.

The WORKING MEN'S INSTITUTION, situate in Church Brow, was erected in 1881, by R. Calvert, Esq., J.P., at a cost of £1,400, and a gift of 1,000 volumes was made by the same gentleman to the institution in 1891. In 1908 the building was extended and the principal rooms were considerably enlarged, and later were richly decorated, Mr. Henry Calvert defrayed the cost of the extensions. In 1897, in order to commemorate the Diamond Jubilee of her late Majesty Queen Victoria, a Drinking Fountain was erected, by the inhabitants, on the Chorley Road.

The CONSERVATIVE CLUB, Chorley Road, was built in 1911, at a cost of £750. The foundation stone was laid by Col. Rutherford, M.P., The Club was opened in December the same year, by Lord Derby.

BAMBER BRIDGE is a populous village on the East Lancashire Railway, 3½ miles S.S.E. from Preston. ST. SAVIOUR'S CHURCH was built in 1837, on land given by the late R. T. Parker, Esq. It was enlarged in 1886-7, by the addition of chancel and transept and lengthening of the nave. The alterations were carried out from designs by Messrs. Myres, Veevers & Myres, Preston, the cost being £3,300. The late G. B. Dewhurst, Esq., p[illegible]ated the church with a good organ, and to his m[illegible]mory three staine[illegible]ass windows have been placed in the chancel—one erected by Harry Dewhurst, Esq., and the other two by the workpeople of Cuerden Mill. The church now contains 800 sittings, the number being heretofore 650. The benefice is a vicarage, value £314, in the patronage of the Vicar of Blackburn, and held by the Rev. Wm. F. Cook, M.A. Near the church is a good school, built in 1884. ST. AIDAN'S CHURCH, built in 1885, is from a

design by Mr. R. Knill Freeman, of Manchester. At present only the east end has been completed, leaving the west end for a further extension. The church, when completed, will consist of nave, side chapel, chancel, and transepts. The cost of the present portion was about £5,200. The style adopted is late Decorated Gothic, and, when completed, there will be sitting accommodation for 800 persons. There are at present about 500 sittings. The benefice is a vicarage, of the value of £194, in the patronage of the Bishop of Manchester, and held by the Rev. Thomas Mullineaux, M.A. A WESLEYAN CHAPEL, in the Early English style of architecture, was erected here 27 years ago, at a cost of £2,000. The CONSERVATIVE CLUB was built in 1888, at a cost of £1,250, inclusive of site and furnishing. There are billiard, reading, smoke, and committee rooms, and an assembly room, capable of accommodating 350 persons. Attached is a bowling green. The LIBERAL CLUB was also built in 1888, at a cost of £1,000, including furnishing. ST. SAVIOUR'S CLUB, built in 1903 by Harry Dewhurst, Esq., is a handsome building of faced brick with stone dressings, and comprises billiard, reading, and reception rooms. It replaces the old room, which was originally a chapel, built in 1821. The DRILL HALL (11th Lanc. Battery 2nd West Lanc. Brig. R.F.A.), was built in 1887, at a cost of nearly £800, including land.

BROWNEDGE is three miles S.S.E. from Preston, and here is a beautiful Catholic Church, dedicated to ST. MARY. The mission was first established about the year 1780, by the Rev. Oswald Eaves, and the chapel then erected was superseded by another, which was built in 1826. In 1891-2 this structure was almost entirely rebuilt, the exception being the tower and spire. The wall at the east end was taken down, and the church carried 100 feet back, the total length, including porch and chancel, being now 192 feet. The mean breadth is 71 feet, and across the transepts about 100 feet. The noble sanctuary is supported by a colonnade of ten granite pillars, and a new high altar, designed by Pugin, has recently been erected. A handsome open Gothic roof replaces the old one, and the outer walls are supported by buttresses. On the west side are two new sacristies, Lady chapel, transept, confessionals, and baptistry. In August, 1900, a new altar in the Lady chapel was erected at a cost of £800. It is composed of white marble and alabaster, and was designed by Mr. Bernard Smith, of London, and built by Messrs. Boulton, of Cheltenham. The walls of the nave have been raised, and six rose windows, with ornamental gables, inserted. Longridge and Whittle stone has been used for the exterior walls. The church has been refloored, and fitted with new heating apparatus; a draughtproof door has also been added. The church will accommodate 1,200 persons. The alterations were carried out from designs by Messrs. Pugin & Pugin, of Westminster, and the contractor was Mr. Chas. Walker, of Brownedge and Preston. The spire is 120 feet high, and contains a peal of six fine-toned bells, the principal one being given by the Rev. F. Cooper, a native of Brownedge. The church is under the pastoral care of the Rev. John A. Turner, O.S.B. The Schools were enlarged in 1882 by the addition of a Boys' School. The Girls' School is taught by the

Sisters of Charity of St. Paul. A new Parochial Hall was opened in 1912.

LOSTOCK HALL is a village three miles from Preston on the Lancashire and Yorkshire Railway Company's line.

At TARDYGATE a Catholic School Chapel, dedicated to ST. PAULINUS, was erected in 1891, at a cost of £2,500, and will seat 400 persons. Formerly served from St. Mary's, Brownedge, it has, since January, 1903, been a separate mission, under the pastorial care of the Rev. Cuthbert Mercer, O.S.B., D.D. The Catholic population is about 410. The School is attended by about 120 children.

HIGHER WALTON, is a populous village about three miles S.E from Preston. Here are extensive cotton mills, belonging to Messrs. G. & R. Dewhurst, Ltd., and the Bannister Hall dye works of Messrs. F. & A. Gatty & Co., Ltd. ALL SAINTS' CHURCH, erected in 1862 and consecrated in 1864, consists of nave, chancel, south aisle, and north eastern transept, and will seat 604, with 349 free sittings. The spire was finished in 1871 at a cost of about £600; and a peal of six bells was presented by the late E. Rodgett, Esq., in 1872. One of the stained-glass windows is of very artistic design and execution. It was put in, in 1877, by the late Mr. Rodgett, who completed the decoration of the entire chancel in a most beautiful manner. In 1891, two stained-glass windows were erected to the memory of the late George B. Dewhurst, Esq subscribed for by the workpeople of Higher Walton Mills. In 1903 a window was erected on the south side of the chancel in memory of the late Vicar (Rev. G. Bladon). In 1915 the glass in the central East window, in memory of Mr. R. B. Rodgett, was changed by Mrs. Parker, Withy Grove, Bamber Bridge, in memory of her father and brother. The pulpit, of alabaster, is in memory of the late Edward Rodgett, Esq., and was presented by his widow, who also presented an eagle lectern of brass. The benefice is a vicarage, value £300, in the patronage of the Bishop and the Vicar of Blackburn alternately and the Rev. Henry Edgar Burgess, M.A. (Camb.) is vicar. The vicarage house was erected near the church, from designs by Messrs. Paley & Austin of Lancaster. The SCHOOL was erected in 1864. The WESLEYANS have a chapel here built at a cost of £800; and the UNITED METHODISTS have one at Cuerden Green. The HIGHER WALTON INSTITUTE was erected in 1883, by Messrs. G. & R. Dewhurst, at a cost of about £1,000.

# CUERDALE.

Is a small fertile township on the southern bank of the Ribble three miles S, from Preston, containing 684 acres, and the population in 1801 was 106; 1821, 166; 1831, 159; 1841, 170; 1851, 80; 1861, 56; 1871, 60; 1881, 58; 1891, 60; and 1901, 51; 1911, 58. Rateable value, £1,092 5s. 0d. It forms a portion of the parish of Samlesbury, and is in the parliamentary division of Darwen. Cuerden Hall was erected in 1700 by William Assheton, Esq., whose descendant, Ralph Assheton, Esq., is the present proprietor; but the house has not been occupied by the family for many years. In 1840 as workmen were engaged in digging the earth to replace the soil which had been washed away from behind a wall erected to protect the mansion from the inundations of the Ribble, a leaden chest was discovered, containing 10,000 pieces of silver ingots of various sizes, silver armlets, &c., amounting to more than 1,000 ozs., exclusive of 8,000 coins, chiefly Anglo-Saxon pieces, of the value of 2d. each. The treasure was supposed to have been deposited about the year 910 and the ornaments such as were worn in the time of Alfred the Great. They were adjudged as *treasure trove* to the Queen.

# PENWORTHAM.

TOWNSHIP is in the Hundred of Leyland, Parliamentary Division of Blackpool, County Council Division of Walton-le-Dale, and Union of Preston. The Parish is divided into two wards, viz., St. Mary's and Middleforth Green, each returning four members to the Parish Council. Within recent years the township has to a great extent lost its rural appearance, and it is now an important residential suburb of the town of Preston. PENWORTHAM PRIORY was rebuilt in 1832 by Lawrence Rawstorne, Esq., who died in 1850; and PENWORTHAM BRIDGE was rebuilt in 1759. ST. MARY'S CHURCH occupies a beautiful situation at the east end of a long avenue, adorned with stately trees, and its bulky tower terminates in pinnacles and castellated parapet. The tower contains a peal of six fine-toned bells over 200 years old, and the east window is filled with stained glass. The present edifice is probably of the 15th century, but was restored in 1856. A church, however, existed here prior to the year 1075. It contains 650 sittings, of which 350 are free. The benefice is a vicarage, value £250, in the patronage of Lawrence Rawstorne, Esq., and held by the Rev. Oliver Burton, M.A. Population of Parish, 3,250. A lych-gate was erected in 1897, at the entrance to Penwortham Churchyard, in memory of the late William Adam Hulton, Esq., and his wife. The structure is Gothic, and in point of design and workmanship is one of the most interesting examples of this kind of architecture in the north of England. ST. LEONARD'S CHURCH, Middleforth Green, is an iron structure, built in 1901 by the Venerable Archdeacon Rawstorne to the memory of his sister, Miss Mary Rawstorne. It contains 300 sittings, which are all free. At MIDDLEFORTH GREEN is a school, erected in 1861. A branch of the Hutton Endowed School is at Cop lane. It was founded in 1891, and a new school was erected in 1878.

The WESLEYAN CHAPEL and Sunday School, built in 1910 at a cost of £3,500 from designsby Mr. Arthur Brocklehurst, of Manchester. The building is of Accrington brick with terra cotta dressings. It has accommodation for 235 sittings.

ST. MARY MAGDALENE'S (Chapel of ease to St. Wilfrid's, Preston), Leyland Road, is a neat edifice in the Romanesque style of architecture from designs by Mr. J. H. Mangan, of Preston, and was opened in September, 1912, by His Grace the Lord Archbishop of Liverpool. The building is of grey and blue brick with redstone dressings, and cost £2,500. The altar installed in the church was taken from the private chapel at Alston Hall, and is the gift of Miss Waterton.

**FOR SNOW WHITE COLLARS—PRESTON STEAM LAUNDRY.**

A School for Day Scholars was erected also here about 1914.

A Benedictine Priory, dedicated to the Blessed Virgin, was founded at Penwortham, about the year 1030, and existed until 1537, when it was dissolved, and the property granted to the Fleetwoods.

In 1801 the population of the township was 1,049; 1821, 1,501; 1841, 1,372; 1851, 1, 487; 1861, 1,506; 1871, 1,578; 1881, 1,642; 1891, 1,613; 1901, 2,523; and 1911, 3517. Rateable value, £22,605.

**Parish Council.**—Arthur Milner (chairman), W. H. Lockwood, Geo. Worden, A. E. Evans, J. H. Lang, B. Hargreaves, Ed. Hutchinson and J. R. Taylor. *Rural District Councillors*—Arthur R. Fish and Thos. Jackman. *Clerk, Assistant Overseer and Rate Collector, and Registrar of Births and Deaths*—J. T. Bennett. *Assistant Rate Collector*—W. P. Bennett. *Office*—Leyland Road, Penwortham.

**PRESTON STEAM LAUNDRY, ADDISON ROAD.**

# LONGTON

Is a village 5 miles S.W. from Preston, and its township includes also a portion of the hamlet of Walmer Bridge, a mile further from Preston. It is in the parliamentary division of Blackpool, County Council division of Walton-le-Dale, and Preston Union. The Parish Council comprises seven members. There are large malting and brewing establishments and brick and tile works at Longton, and at Walmer Bridge is an extensive cotton mill. The township contains 3,561 acres, and its population in 1801 was 904; 1821, 1,790; 1841, 1,719; 1851, 1,637; 1861, 1,637; 1871, 1,455; 1881, 1,443; 1891, 1,333, and 1911, 1,800. Rateable value, £14,627. The Lancashire and Yorkshire Railway from Preston to Southport has a station here. The manorial rights belong to the Moss, Strickland, and Wilkins families. The CHRUCH existed in 1517, and was rebuilt in 1770. It was again rebuilt in 1887, and is now a very handsome edifice, in the Gothic style of architecture, from designs by Mr. J. E. K. Cutts, of London. The cost was defrayed by public subscription, the principal donations being received from the late Thomas McGuffog, Esq., L. Rawstorne, Esq., Messrs. William and Richard Strickland, and Mr. T. R. Wilkins. The benefice, a perpetual curacy, value £250, is in the gift of Lawrence Rawstorne, Esq., and in the incumbency of the Rev. William Henry Norris, B.A. The SCHOOL was erected in 1818, and enlarged in 1870. The WESLEYANS and PRIMITIVE METHODISTS have each a chapel in the village. That of the former, opened in 1872, replaced one built in 1807. The CATHOLIC MISSION at Longton was founded by the Very Rev. Canon Lawrence Cosgrave, of St. Augustine's, Preston, with funds supplied by the late Very Rev. Dean Lennon, of Chorley. The chapel is dedicated to St. Oswald, and will seat 100 worshippers. The cost, including school and presbytery, was £2,000. The design was supplied by Mr. Edmund Kirby, of Liverpool, and the contractor was Mr. Thos. Cottam, of Preston. The foundation stone was laid by the late Bishop O'Reilly on June 11th, 1893, and the opening ceremony was celebrated on the 13th October, 1894, by the present Bishop of Liverpool, Dr. Whiteside. The priest in charge of the mission is the Rev. Patrick Francis Keating.

# HUTTON.

THIS is a township of dispersed dwellings from 2½ to 3 miles S.W. from Preston, in the parliamentary division of Blackpool, the County Council divisoin of Walton-le-Dale, and in the Union of Preston. It contains 2,745 statute acres. Rateable value of the township, £6,686. The Parish Council comprises five members. HUTTON GRAMMAR SCHOOL which is situated in this township, was founded 6th Edward VI., by Christopher Walton, of Little Hoole; but in 2nd Elizabeth John Walton, the testator's son, left property to the foundation of the yearly value of £2 12s. 0d., and so great has been the increased value of land, that when the Charity Commissioners issued their report in 1846, its annual value was £850, and it has since advanced to upwards of £1,200 per annum, but this has been seriously diminished by expenditure out of capital upon building several elementary schools in the ancient Parish of Penwortham. In 1876 a new scheme for the administration of the school was made by the Charity Commissioners, but it was not carried into effect until 1878. By it the character of the school has been entirely changed, as no boys are now free, and provision is made for boarders, who form the majority oi pupils. With a view to this, the Governors spent a considerable sum of money in altering the buildings so as to adapt them for the purpose, a new wing being added, containing a large dining hall, dormitories for 50 boys, bath-rooms, &c.; also, in 1885, a large room, 65 feet long and 20 feet wide, was erected to serve the double purpose of a gymnasium and drill hall. In 1895 a new wing was added at a cost of £600; and in 1901 a complete laboratory was equipped for physical and chemical instruction, at a cost of £500. In 1906 a gymnasium 60 feet long by 25 feet wide, and a workshop 35 feet by 20 feet, were added at a cost of £750, both thoroughly equipped for their different purposes. The present head master is the Rev. T. S. Cunningham, M.A. Population of Hutton in 1801, 462; 1821, 613; 1841, 563; 1851, 500; 1861, 461; 1871, 395; 1881, 389; 1891, 374; and 1901, 419.

DAINTY FINERY AT THE PRESTON STEAM LAUNDRY.

# MUCH HOOLE.

CONTAINS a scattered village 8 miles S.W. from Preston. The surface is generally flat, and most of the land abounds with marl. Its rateable value is £4,116, and its population in 1801 was 417; 1821, 644; 1841, 785; 1861, 708; 1871, 644; 1881, 581; 1891, 567; and 1911, 642. It is in the parliamentary division of Blackpool, County Council division of Walton-le-Dale, and Preston Union. The Parish Council consists of six members. The CHURCH, dedicated to St. Michael, or, according to some, to the Holy Trinity, is a neat edifice, with a tower erected on four pillars. It was originally erected as a chapel-of-ease to Croston, in the fifteenth century, and re-edified in 1828. the tower was erected in 1720, and in 1859 the parishoniers placed a new clock in it, as a memorial to Jeremiah Horrox. A chancel was added in 1858. On the north side of the tower is the old yet forcible moral reflection, "*Ut Hora sic Vit.*"—"As the hours so is life"; and the church contains a few neat tablets and monumental memorials. The living is a rectory of the annual value of £280, in the patronage of Mrs. Dunne, and held by the Rev. E. N. Dunne, B.A. A tablet in memory of the late rector, the Rev. Robert Brickel, has been erected in the church. The WESLEYAN CHAPEL, erected in 1882, at a cost of £800, in Much Hoole, contains 360 sittings. It replaced an older building dating from 1848. Near the church is a commodious school house, erected in 1850, for which £200 was received from the Committee of Council and £50 from the National Society. Several improvements have since been made at a cost of £160, to which the parishioners contributed. The celebrated astronomer, Jeremiah Horrox, made his observations in this township previous to entering Emmanuel College, Cambridge.

Yerburgh, M.P., the Blackburn Corporation, Messrs. Crook & Thompson, Exors. of H. M. Gaskell, and Mrs. A. W. Crook, and Mr. E. Woods. Population in 1801, 1,664; 1811, 1,589; 1821, 1,979; 1831, 1,948; 1841, 1,728;

There are two paper mills in the township—one at Roach Bridge, and another at Samlesbury Bottoms. The old manorial mansion, called Samlesbury Hall, was re-built by Sir Thomas Southworth, in 1532. It came into the possession of Joseph Harrison, Esq., of Blackburn, in 1860, by whose son, W. Harrison, Esq., it was beautifully restored and enlarged. In the south side of the edifice is a room which was a domestic chapel in Catholic times. The hall is now occupied by Frederick Baynes, Esq.

ST. LEONARD'S CHURCH occupies a pleasant situation on the southern bank of the Ribble. The original fabric existed in 1196, and was re-built about the year 1559. The church has recently been restored and otherwise much improved. A new clock tower, containing a peal of eight bells, has been added, the cost being defrayed by Mr. and Mrs. T. M. Crook, of Stanley Grange. The same donors also gave a beautifully carved screen and canopy for Anglo-Saxon font. The church contains 430 sittings. The benefice is a vicarage, value £290, in the gift of the Vicar of Blackburn, and incumbency of the Rev. T. N. Broadhead. The school was built in 1836.

THE ROMAN CATHOLIC CHURCH occupies a pleasant situation at South Bank. It is dedicated to the Blessed Virgin, and is under the pastoral care of the Right Rev. Monsignor William Hill. The Catholic School, Sowerbutts Green, was erected in 1876.

# CUERDEN

Is a township of dispersed dwellings about four miles S.S.E. from Preston, and in the parliamentary division and Union of Chorley. It contains 807 acres, mostly the property of R. A. Tatton, Esq., of CUERDEN HALL. This is an elegant mansion, situated in an extensive and well-wooded park, and its pleasure grounds are laid out with great taste and elegance. Soon after the Conquest the manor of Cuerden was given by Roger de Poictou to Vivian Molineux, who followed him from Normandy. It afterwards descended to Henry de Kuerden, and in the latter end of the reign of Henry III. was in possession of the Banastre family. The manor was subsequently possessed of the Charnock and Langton families, and next descended to the Fleetwoods and Banisters, and from the latter to the Parkers. WOODCOCK HALL is an ancient building on Lower Cuerden Green, and was the inheritance of the Woodcock family, "for four or five hundred years." Rateable value, £3,117. Population in 1801, 519; 1811, 753; 1821, 569; 1831, 592; 1841, 573; 1851, 521; 1861, 666; 1871, 647; 1881, 573; 1891, 456; 1901, 450; and 1911, 497. There is in the township a large cotton mill, at which a number of hands are employed.

# CLAYTON-LE-WOODS.

THIS is a township of a very undulating surface, and contains the small hamlet of Clayton, with several dispersed dwellings, and the village of Clayton Green, five miles S.S.E. from Preston, and four miles N.N.W. from Chorley. It is in the Chorley parliamentary division and Chorley Union, and is governed by a parish council, consisting of five members. It comprises 1,430 acres, the principal land owners being R. A. Tatton, Esq., and Lord Lathom. Population in 1801, 706; 1811, 730; 1821, 810; 1831, 926; 1841, 795; 1851, 747; 1861, 755; 1871, 607; 1881, 582; 1891, 542; and 1911, 1,200. A weaving shed, containing 1,000 looms, built by the late J. N. Boothman, Esq., has been the means of bringing increased commercial prosperity to the neighbourhood At Clayton Green is a neat CATHOLIC CHAPEL, dedicated to St. Bede; it is in the Grecian style of architecture, and was erected in 1823 by the Rev. Samuel Day. In 1897 the church was renovated. The alterations comprise an entirely new roof, new flooring, and new benches of pitchpine with mahogany tops. The walls have been decorated in Grecian style. In the nave are two very fine stained-glass windows. The high altar, of white marble, is approached by four marble steps. On either side of the sanctuary are finely-carved sedilia, while the small side altars add grace to the general effect. The cost of the alterations was about £500. The church will accommodate about 500 persons, and is now under the pastoral care of the Rev. A. J. MacEvoy, O.S.B. The CATHOLIC SCHOOL is attended by about 140 children. A pretty WESLEYAN CHAPEL has recently been erected. It is a two-storey structure, the chapel being approached by a broad flight of steps from the road leading to a bold central entrance doorway, with inner vestibule. The edifice is externally faced with pressed bricks, with dressings of Yorkshire stone. The architect was Mr. W. H. Dinsley, of Chorley, and the cost of the building was £1,700. It will seat 280 persons. Clayton Hall is a large antique building of the Elizabethan age, and was formerly the seat of the De Clayton family, but has been for a length of time the homestead of a farmer.

The CHURCH, dedicated to St. John, was erected in 1829-30, but the old building has disappeared, and on its site a new and stately edifice has been erected. The foundation stone was laid in July, 1880, and the building was opened in 1882. The architects were Messrs. Myres, Veevers, and Myres, of Preston, and the cost of erection amounted to between £8,000 and £9,000. It is in the Gothic style of architecture, and consists of nave, octagon chancel, south aisle, transept, organ chamber, and tower at the north-east corner. In 1890 a new organ was erected, and in 1892 three stained-glass memorial

# HOGHTON

Is a township containing 2,227 acres, and situated six miles E.S.E. from Preston, and four miles W.S.W. from Blackburn, in the parliamentary division of Chorley, and in Chorley Union. Through the kindness of Sir James de Hoghton, the township now possesses an ample supply of water. The parish council consists of six members The population in 1801 was 1,301; 1811, 1,698; 1821, 2,111; 1831, 2,198; 1841, 1,706; 1851, 1,373; 1861, 1,201; 1871, 906; 1881, 871; 1891, 872; 1901, 940; and 1911, 913. It is nearly all the property of Sir James de Hoghton, Bart., who resides at Hoghton Tower,

which has been in a great measure restored to its former splendour, and which is now one of the finest baronial halls in the north of England. The family of Hoghton has been connected with the township since the 12th century, and the tower was erected by Thomas Hoghton in the reign of Elizabeth. This stately pile crowns the top of a hill, rising in isolated pre-eminence from the rocky banks of the Darwen, and is a conspicuous object for many miles. Its western front consists of three towers, ornamented with battlements and indented windows, and beneath the centre one is the gateway. The draw-well is 43 yards deep. The landscape from Hoghton Tower is magnificent. HOGHTON CHURCH, dedicated to the Holy Trinity, was erected in 1823 by the Parliamentary Commissioners. It was rebuilt by the Trustee of the late Henry de Houghton in 1887, at a cost of between £5,000 and £6,000. The old walls remain, but a tower and chancel have been added. A peal of eight bells and a clock, striking the Cambridge quarter chimes, were presented by the late Sir Charles de Hoghton. The building is in the Early English style of architecture, designed by the late Mr. James Bertwistle, of Blackburn, and consists of nave, south aisle, chancel and tower. It contains 400 sittings, of which 120 are free. The benefice is a vicarage, value £190, in the gift of the Vicar of Leyland, and incumbency of the Rev. Thomas L. Webster, inducted 1899. The SCHOOL originally founded by Sir Chas. de Hoghton in 1709, was superseded by the school built in 1838, and enlarged in 1873. The WESLEYANS have a chapel here, erected in 1794. Rateable value, £10,000.

# BRINDLE

Is a parish in the Hundred of Leyland, 2½ miles in length, and 1½ miles in breadth, and containing 3,104 acres, mostly belonging to Lord Chesham, Exors. of T Whitehead, Esq., Sir James de Hoghton, Bart., and Colonel Lees. The village of Brindle is five miles N.E. from Chorley, six miles S.E. from Preston, and seven miles S.W. from Blackburn. Sir William Cavendish, whose father was one of the commissioners for visiting the religious houses in 1530, is found patron of the living soon after this date, but the manor did not come into the possession of fhe

family until the middle of the 18th century. The parish is in the parliamentary division of Chorley and in the Chorley Union, and is governed by a parish council comprising seven members. ST. JAMES' CHURCH is a Gothic fabric, rebuilt by the parishioners in 1817, at a cost of £1,650. In 1869 the chancel and Cavendish chapel were restored, and the nave improved and fitted with open seats, at a cost ot £1,600, defrayed chiefly by Lord Chesham and the Duke of Devonshire, and in 1888 the interior was thoroughly beautified. In 1900 a stained-glass window to the memory of Mrs. Jacques, wife of a former rector, was erected. The tower has strong buttresses and crocketted pinnacles, and is part of the original structure which existed in the year 1500, and probably dates from a much earlier period. It was restored in 1891, and it contains a peal of bells cast at the beginning of the 14th century. The church contains 525 sittings, all of which are free. The benefice is a rectory, value £400, in the patronage of the Duke of Devonshire, and in the incumbency of the Rev. Philip Lancashire, M.A. The school was enlarged in 1891, and has accommodation for 150 children. ST. JOSEPH'S CATHOLIC CHURCH is a substantial edifice near Brindle Lodge, erected in 1786, and enlarged in 1832. The chancel was enlarged in 1888, and in 1896 a new Lady Altra was erected in the Lady Chapel. It will hold 700 persons, and is under the pastoral care of the Rev. T. B. Feeny, O.S.B. The beautiful high altar, dedicated to St. Joseph, was erected to the memory of the Rev. Joseph B. Smith, who was in charge of this mission from 1830 till his death, January 29th, 1874. His remains were interred in the cemetery attached to the church. The CATHOLIC SCHOOL at Brindle was built in 1831 by James Knight, of Chelsea, but a native of Brindle. It was recently enlarged, and has attached a clubroom and library. Its capacity is sufficient to accommodate 300 children. Population in 1801, 1,271; 1811, 1,425; 1821, 1,547; 1831, 1,558; 1841, 1,401; 1851, 1,310; 1861, 1,501; 1871, 1,339; 1881, 1,173; 1891, 1,106; 1901, 1,026; and 1911, 1,040. Rateable value, £9,928.

# BARTON

Is a township of scattered dwellings, about 5½ miles N.N.W. from Preston, and it is in the parliamentary division of Blackpool, county council division of Amounderness, and Preston Union. Under the

Local Government Act, 1894, the hamlet of Newsham, previously forming a portion of the township of Goosnargh-with-Newsham, was added to this township. The parish council comprises five members. The population in 1851 was 370; 1861, 343; 1871, 308; 1881, 368; 1891, 338; 1901, 423; and 1911, 432. Rateable value, £11,213. On April 22nd, 1895, the foundation stone was laid, by the Right Hon. Lord Cross, G.C.B., of a new church, dedicated to ST. LAWRENCE. It is in part a memorial of the late C. R. Jacson, Esq., who had subscribed £2,500 towards the cost. Another donation of £2,000 was made by the late Miss Cross. The Church was consecrated on July 29th, 1896, the cost of its erection being over £6,000. It is a handsome structure in the decorated English style, designed by Mr. R. K. Freeman, and is faced with Rainhill stone. It replaces a church dating from 1845, but a church existed here as early as 1577. The district assigned to this church consists of Newhsam, Bilsborrow, Myerscough, and the north end of Barton. There are 400 sittings, of which 100 are free. The benefice, a vicarage, alternately in the gift of the Bishop of Manchester and G. B. H. Marton, Esq., is returned as worth £230, and is now held by the Rev. H. J. Bardsley, M.A. The SCHOOL was erected in 1848 by Charlotte Jacson, in memory of her husband, George Jacson. At Newsham is a CATHOLIC CHAPEL, dedicated to the Blessed Virgin, rebuilt in 1806, near the site of a more ancient edifice, dating from 1774. In 1906 a new church was built. partly on the site of the old structure. It is Gothic in style and is of stone throughout, The total cost about. £5,000. Accommodation is provided for 300 worshippers. Mr. Gilbertson, of Liverpool, was the architect. Rev. John Brophy is pastor. Attached is a Catholic School, attended by about 60 children.

# BROUGHTON

A pleasant township $3\frac{3}{4}$ miles N. from Preston, is supposed to have taken its name from a Roman fort. The area is 2,367 acres, and its gross rateable value is £11,764. Population in 1851, 685 ; 1861, 709 ; 1871, 601 ; 1881, 590 ; 1891, 610 ; 1901, 616 ; and 1911, 722. It is in the parliamentary division of Blackpool, county council division of Amounderness, and Preston Union. The parochial chapelry includes the townships of Broughton and Haighton, with the greater part of Barton. The local affairs are managed by a parish council, consisting of five members. The CHURCH, dedicated to St. John the Baptist, existed in 1112, and the tower dates from 1533, the only portion of the original fabric now remaining, the other parts having been rebuilt in 1826, when most of the antiquities were destroyed, and with them the chancel and two chapels. Recently the ancient font was restored to its place. A peal of bells and a clock have been placed in the tower ; the cost of the former, £289, was defrayed by the late D. Arkwright, Esq., of Preston. A new chancel and organ chamber was erected in 1901 at a cost of between £4,000 and £5,000. In 1908 a reredos of oak was erected which cost £315, was given by Miss Wilson. It contains 400

sittings. The benefice is a vicarage, value £280, in the gift of the representatives of the late Rev. W. Bretherton, and held by the Rev. S. A. Collinson. A GRAMMAR SCHOOL, built here in 1846, is endowed with £110 a year, and governed by nine trustees, of whom three are co-optative. At Fernyhalgh is a CATHOLIC CHAPEL, dedicated in honour of the Blessed Virgin. It was rebuilt in 1796, but a chapel existed here before the 15th century. It will accommodate 250, and is beautifully ornamented, together with a beautiful set of Stations of the Cross. Other improvements have also been effected, including new benches, &c. A handsome new memorial brass plate has been erected in front of the sanctuary, where repose the remains of the Rev. Father Lund, a great benefactor to the mission, A very old cemetery cross stands near the well, which is named after Our Blessed Lady. Rev. Edward Blacoe is pastor. The BROUGHTON CATHOLIC CHARITABLE SOCIETY, for the relief of the poor and the spiritual benefit of living and deceased members, was established here in 1787. There is over 2,000 members. The general meetings are held every Whit-Tuesday, and are numerously attended by clergy and laity.

**Parish Council.**—Richard Hardman, Hanson Hargreaves, George Duckworth, John Jackson, and Robert Hargreaves.

# GOOSNARGH

TOWNSHIP, 7 miles N.E. from Preston, has an area of 8,672 acres, and a rateable value of £13,825. It is in the parliamentary division of Blackpool, county council division of Amounderness, and Preston Union. The township was formally called Goosnargh-with-Newsham, but the latter portion was detached under the Local Government Act, 1894, and added to the township of Barton. There are two wards, viz., Whitechapel and St. Mary's, and the parish council comprises seven members. The population of the township in 1871 was 1,264; 1881, 1,197; 1891, 1,576; and 1901, 1,442. ST. MARY'S CHURCH, which existed in 1553, is a Gothic edifice with a square tower, and will seat 500. It was re-roofed and re-seated in 1868, at a cost of £1,800. The church was again re-roofed, the vestry enlarged, and other improvements effected in 1895, at a cost of £1,200. The vicarage is in the patronage of the Dean and Canons of Christ Church, Oxford, and its value is £235. Rev. T. B. Boss, M.A., is the vicar. There is another church at WHITECHAPEL, about three-quarters of a mille from Inglewhite village. It is dedicated to St. James, and was enlarged in 1716-17, but existed in 1650. In 1818 the building was partly rebuilt, and in 1888 it was again enlarged, and an addition was made to the churchyard. A new organ, by H. Ainscough, of Preston, was opened December 8th, 1900. The instrument is a two-manual one, with pneumatic movement, to pedal organ. The cost was £270. The church contains 253 sittings, all free. The benefice is a perpetual curacy, in the same patronage as that of Goosnargh, and is worth £200. Rev. E. A. M. Godson, M.A., vicar. The CATHOLIC CHAPEL at "The Hill" was rebuilt in 1802, and again in 1835. It was decorated in 1895. In 1880 a cemetery for the asylum patients was opened, in which year also a school was erected. It is dedicated to St. Francis, and is under the pastoral charge of the Rev. J. B. McLoughlin. The INDEPENDENTS have a chapel at Inglewhite, erected in 1826. The school for Goosnargh and Whittingham, near St. Mary's Church, was endowed in 1673, and the property now lets for above £40 a year. In compliance with the requirements of the Education Department, the school was enlarged in 1895, at a cost of £1,200. A school for Goosnargh only, at Whitechapel, was endowed in 1705; and about 1840 a school for the two townships was founded by R. Oliverson, Esq., of London. The principal monument of beneficence here is GOOSNARGH HOSPITAL, founded in 1735, by Dr. William Bushell, of Preston, who endowed it with property now producing about £3,000 a year. A new scheme, issued by the Charity Commissioners, for dealing with this important charity came into force in 1896. Under its provisions the number of

SHIRT AND COLLAR SPECIALISTS—PRESTON STEAM LAUNDRY.

inmates has been reduced from 30 to 24. The trustees now number 11, of whom six are elected, two are *ex officio* (the Vicar of Preston and the Vicar of Goosnargh), one each is appointed by the County Council, the Corporation of Preston, and the Magistrates of the Hundred of Amounderness. After providing for the inmates the surplus is devoted to providing pensions of ten shillings per week for a limited number of outdoor residents. The house has been enlarged by the addition of a new wing, and other improvements effected, including the installation of the electric light, at a total cost of about £10,000. The recipients of the bounty must be inhabitants of Preston, Euxton, Goosnargh, Whittingham, Fulwood, and Elston, being Protestants. Mr. William Smith, governor.

# LONGRIDGE

THIS is a large and important village 3½ miles N.N.W. from Ribchester and 7 miles N.N.E. from Preston. Its population has increased considerably within the last few years, and it is considered to be blessed with a very healthy air. It is situate near Longridge Fell, and the views from Tootle Height are picturesque and extensive. The cotton trade is carried on to a large extent. There are also here several stone quarries of excellent quality. The inhabitants are supplied with gas by a company formed in 1867 under the Limited Liability Act.

**THE LAUNDRY OF THE MEDICAL PROFESSION, P.S.L.**

There are two gasholders capable of containing 70,000 cubic feet of gas. The product of the stone quarries is mostly forwarded to Preston by means of the railway, which was opened from that town to Longridge, June 1st, 1840. In 1911 the population of Alston-with-Hothersall was 2,006, and of Dilworth, 2,334; The rateable value of Alston and Hothersall is £15,870, and of Dilworth £12,178. The former township is in the parliamentary division of Blackpool, and the latter in that of Darwen. The urban council district is in the county council division of Amounderness, and Preston Union, and the council is composed of nine members. Fairs are held in February 16th, March 16th, April 16th, Monday in Holy Week, and November 5th. The original parish church, dedicated to St. LAWRENCE, was in existence prior to the Reformation, and was rebuilt in 1690, in 1874, and again in 1882, and in 1900 it was generally restored at a cost of £2,500. It has been superseded by a more elegant and commodious structure. The new edifice, consecrated in 1890, is dedicated to ST. PAUL, and is centrally situated in Berry Lane. The style of architecture is Gothic, from designs by Mr. Ewan Christian, and the cost of erection was £13,080, the contractors being Messrs. Kay & Pinder, of Longridge. There are 622 sittings. The site was presented by the late R. Smith, Esq., as also the organ chamber and vestries. This gentleman also presented the church with a handsome stained-glass window and reredos, completed in 1897. The benefice is a vicarage of the annual value of £380, in the patronage of Hulme's Trustees, and held by the Rev. Thomas M. Harrison, M.A. The Boys' School erected in 1884, in Berry Lane, is a commodious building, the gift of the late Robert Smith, Esq., the site being presented by the late vicar, the Rev. F. A. Cave-Brown-Cave, to whose memory an Infant School was erected in 1896 at a cost of nearly £1,000. It adjoins the Girl's School in Berry Lane, and will accommodate 175 children. The CATHOLIC CHURCH, dedicated to St. Wilfrid, is in the Early English style, and will hold about 500 people. The cost of the portion already completed was £3,000. The church has been enriched by the addition of an elaborate high altar, constructed of Caen stone, Italian and French marble, Belgium granite, and Derbyshire alabaster, at a cost of over £500. Rev. J. A. Wissink, pastor. The mission was established in 1868, and the building in that year erected is now used for school purposes. There is another CATHOLIC CHURCH at Alston Lane, under the pastoral charge of the Rev. Ignatius Harris. The foundation of this mission dates back to the 17th century. It was re-founded in 1761, and the church rebuilt in 1856. A new altar, constructed of Caen stone and marble, was recently erected by Mrs. Waterton, of Alston Hall, in memory of John and Ellen Mercer, her parents. A handsome stained-glass window, which cost about £260, was placed in the chancel to the memory of the late Rev. Thomas Walton, who is also commemorated by a handsome mortuary cross, erected by his executors. He was the zealous pastor here for 25 years. The INDEPENDENTS have a chapel in Berry Lane, built in 1865, and their school will hold about 400 children. Rev. James Byers, minister. The WESLEYAN CHAPEL, Berry Lane, is a very neat edifice, built in 1884, at a cost of £1,400, and

will seat over 300 persons. It has superseded an older chapel, dating from 1836.

# RIBCHESTER.

Is an ancient village situated on the river Ribble, 7 miles N.N.W. from Blackburn, 11 miles N.E. of Preston, about 29 N.N.W. from Manchester, and 3½ from the Longridge railway station. The township is in the Darwen parliamentary division, Amounderness county council

**NONE CAN DO MY WORK SO WELL AS THE EVER READY P.S.L.**

division, and Preston Union. The parish council comprises seven members. The population in 1871 was 1,329; 1881, 1,284; 1891. 1,265; 1901, 1,237; and 1911, 1,315. The rateable value is £5,809, Ribchester retains a certain amount of importance from the fact of its having been a Roman station, and is supposed to be the ancient COCCIUM of Horsley. Many antiquities of the Roman era have been found at different times, some of the most interesting being an altar dedicated to the "mother goddesses," and now in the bowling green at Stonyhurst College, found in 1603; and at subsequent periods there have been found an altar to Mars and Victory; the remains of a temple dedicated to Minerva, and fine altar found in 1833. The CHURCH, dedicated to St. Wilfrid, existed in the 13th century, and is a strong, plain, and rather heavy building. It consists of nave, south aisle, choir chapel on the north side, capacious chancel, and square tower containing six bells. The church contains 610 sittings, 366 of which are free. The benefice is a rectory, of the annual value of £300, in the patronage of the Bishop of Manchester, and held by the Rev. J. W. Brooker. STYDD, about a mile from Ribchester, contains the remains of a very ancient chapel, supposed to have been erected during the reign of King Stephen, between 1135 and 1154. It is built of common freestone rubble, and is about 18 feet long and 16 feet high. If is within the district of, and is held by, the rector of Ribchester, who holds a service here on the last Sunday of every month, except in winter time. At one time there was in close proximity to it a hospital belonging to the Knights Templars. In the reign of Henry VIII. the hospital was broken up, and not a vestige remains.

Stydd Lodge CATHOLIC CHAPEL dates from about the year 1790. It is dedicated to SS. Peter and Paul, and will accommodate about 250 persons; Rev. D. Burke, pastor. Close to the chapel are the Stydd almshouses, founded by one of the Sherburns, in 1720, for old and infirm women belonging to the Catholic religion.

KNOWLE GREEN is a hamlet in the township of Ribchester, about 2 miles N. therefrom, and about 2 miles E. from Longridge. The only place of worship here is the CONGREGATIONAL CHAPEL; minister Rev. Harold Green. In 1866 the old chapel (now used for school purposes), was replaced by the present structure. It is a plain stone erection, and will seat 300 persons.

existed here in the 11th century, but the structure which the present church has replaced is said to have been built or rebuilt in 1510. The font has long been an object of interest, and has on it the monogram I.H.S., the instruments of the passion of our Lord, and other devices. The church contains 442 sittings, all free. The benefice is a vicarage, value £300, in the patronage of the Bishop of Manchester, and is held by the Rev. Geo. Tomlinson M.A. ST. MARY'S CATHOLIC CHURCH is a plain edifice, but the interior is beautifully decorated. It was built in 1827, and will accommodate about 350 persons. Rev. Thomas Galloway, is pastor. CHIPPING SCHOOL was founded in 1684 by the trustees of J. Brabin, Esq., with an estate let for about £70 a year. It is now conducted in accordance with the scheme laid down by the Charity Commissioners, in 1876, and is under Government inspection. A new school was erected in 1800, at a cost of about £1,800. There are several other charities for Chipping, including the almshouses, also founded by the same benefactor. The Catholics have a school near their church, attended by about 45 children. Fairs are held at Chipping on Easter Tuesday and August 24th.

The township is in the parliamentary division of Blackpool, and in the Fylde county council division and Union. The parish council consists of five members. The line of railway from Kirkham to Lytham has a station here. The township contains 1,386 acres, and the rateable value is £4,220. Its population in 1851 was 406; 1861, 444; 1871, 466; 1881, 392; 1891, 401; 1901, 475; and 1911, 598. The chief landowners are Mr. Charles Harwood, Misses Hornby, H. L. Birley, Esq., H. Birley, Esq., and A. Shepherd-Cross, Esq. The principal residence in the township is Ribby Hall, belonging to the Hornby family. The CHURCH is dedicated to St. Nicholas. The original church was built in 1715, and in 1849 it was rebuilt from a design by Mr. E. G. Paley, at a cost of £1,600. It was consecrated in 1855. About 1857 the interior of the church was renovated and improved by the erection of a handsome stone pulpit and a new organ chamber, the chancel tiled, and pitchpine choir stalls provided, and a new vestry was also provided, at a total cost of about £600. A beautiful painted window, to the memory of one of the Birley family, and another to that of Mrs. Fazackerley-Westby, were erected in 1884. In this year also a tower and spire, by Paley & Austin, were built at a cost of £1,300, thus improving greatly the appearance of the church, as well as forming a handsome and effective feature in the landscape. A peal of tubular bells was placed in the tower in 1888 to commemorate Her late Majesty's Jubilee. In 1891, a painted window, in memory of the late Earl of Carnarvon, was given by the Freemasons of Preston, and the Fylde, presented by Sir M. W. Ridley, Bart. Another window was also erected in the same year, to the memory of Mrs. Swan and Lieut. E. P. Homan, by the Rev. R. S. and Mrs. Stoney. A handsome coloured window has been placed on the north side in commemoration of the late Queen's Diamond Jubilee, and also one in memory of the late Vicar, at a cost of about £50. The church contains 300 sittings, of which 100 are unappropriated. The benefice is a vicarage, of the annual value of £275, in the patronage of the Vicar of Kirkham, and held by the Rev. John Barker, M.A., Camb., who resides in a good vicarage, built in 1870 at a cost of £1,200. The Ecclesiastical population, which includes Westby, numbers 754.

A new INFECTIOUS DISEASE HOSPITAL has been erected by the Fylde Joint Hospital Committee, and is situate at Moss Side. It is arranged on the latest sanitary principals, and consists of seven isolated blocks to accommodate a total of 30 patients. Messrs. Haywood & Harrison were the architects, and Mr. S. Wilson the contractor, the cost being £17,146.

The ENDOWED SCHOOLS for boys and girls have an endowment of £210 yearly, arising from an original bequest of £800, left by Nicholas Sharples, a native of Wrea Green, 1716, and a sum of £200, left by James Thistleton, in 1693. The two trusts were amalgamated in 1755. In 1894 new schools were erected, at a cost of £1,400, from a design by

Messrs. Garlick & Sykes, of Preston, the contractors being Messrs. J. Fielding & Sons, of Blackpool. The managers of the schools are Rev. J. Barker, M.A., and Hutton Birley, Esq. (foundation managers); J. H. Crook and Alex. Jolly (parish).

# GARSTANG.

Is a small ancient market town in the parliamentary division of Lancaster, pleasantly situated on the western bank of the Wyre, which is here crossed by a noble bridge, about 1½ miles west from the Garstang station on the railway from Lancaster to Preston, 11 miles south from the former town, and 11 N.N.W. from the latter, 41 miles from Manchester, and 229 miles from London. It is the head of a county council division, embracing 23 townships, and under the Local Government Act, 1894, a parish council was established, which consists of six members. It is a clean town, consisting principally of one street, and previous to the introduction of railways was a busy thoroughfare, being on the great western north road from London to Edinburgh. An excellent market is held here every Thursday. The London and North-Western line of railway has a station a short distance from the town. and the railway to Knott End, near Fleetwood is of considerable advantage to the palce. A MARKET HOUSE was built by the lord of the manor in 1843. The town was first incorporated in 1314 by Edward II. The charter conferred the privileges of a market, fairs, &c. In 1680 Charles II, granted a new charter, with additional privileges. Fairs are held on November 22nd and 23rd. The TOWN HALL consists of an upper and three lower rooms. It is the successor to an older building, which was taken down in 1755. Petty sessions are held in the building known as the Garstang Institute every alternate Thursday. Mr. John Forshaw is clerk to the magistrates. A county court is held here. His Honour Judge, Sturges Esq., is Judge of the county court, and H. Forshaw, Esq., registrar.

ST. THOMAS' CHURCH was erected as a chapel-of-ease in 1497, and rebuilt upon a lower scale in 1776. It was restored in 1876. It contains 500 sittings, of which 400 are free. The edifice consists of nave, chancel, and square tower, in which are two bells. The benefice is a vicarage, value £174 per annum, in the gift of the Vicar of Garstang, and held by the Rev. T. H. Florence, A small burial ground was presented to it in 1847 by F. W. Keppell, Esq.

The CATHOLIC CHURCH, dedicated to St. Mary and St. Michael, is a handsome Gothic structure, from a design by the elder Pugin. It stands in Bonds, and has superseded the Catholic Chapel which was erected in 1784. The foundation stone was laid June 15th, 1857, and the church was opened 18th August, 1858. It consists of nave and aisles, separated from each other by a row of fine pillars with pointed arches, and its dimensions are 117 feet long by 46 feet wide. The altar is of Caen stone, and the church contains several beautifully-stained glass windows. In 1894 the church was thoroughly renovated, and on September 30th of that year a new marble pulpit was opened, and a new and beautiful set of oil-painted Stations of the Cross, worth £300, were unveiled. In June, 1898, new marble altar rails were erected at a cost of £200. The church will accommodate about 800 persons, and the cost of its erection amounted to £5,000.. In the tower is a good tenor bell. Rev. James O'Dwyer, pastor. Adjoining the church

"YES, THE BEST LAUNDRY IS THE P.S.L."

are a presbytery and burial ground, and close to it are excellent schools, the whole covering 2½ acres of land. These schools are now attended by about 130 children. They are in the care of the Sisters of Charity of St. Paul. The Dissenting places of worship in Garstang are a CONGREGATIONAL CHURCH, built in 1777, and a WESLEYAN METHODIST CHAPEL, erected in 1814, at a cost of £670, and rebuilt in 1879 at a cost of about £1,500. A house for the minister has been erected at Bonds, at a cost of about £750. The GRAMMRR SCHOOL, founded in 1602, possesses an endowment of £10 a year. The NATIONAL SCHOOL was built in 1864 at a cost of £300, and has since been enlarged.. The GARSTANG INSTITUTE is a neat structure, erected in 1896 at a cost of nearly £800. It adjoins the Old Institute, which was opened in 1865 in the building formerly used as a Catholic Chapel. The LIBERAL CLUB, erected at a cost of about £900, is a commodious building. The police force for this division is under the superintendence of Mr. Joseph Jackson, The township contains 493 acres, and its rateable value is £3,608. The population in 1851, 839; 1861, 714; 1871, 687; 1881, 783; 1891, 856; 1901, 808; and 1911, 836. The UNION WORKHOUSE is situated in the adjoining hamlet of Bonds.

Westby Hall, the ancient seat of the Cliftons, has long since disappeared, and the Catholic Chapel, which stood contiguous, has been altered and converted into a farmhouse. But a neat CATHOLIC CHAPEL was built in Westby in 1860. It is dedicated to St. Anne, and will accommodate 500 worshippers. During 1889-90, the church having been declared unsafe by P. P. Pugin, Esq., architect, there were erected on the outside 12 massive buttresses to support and tie the walls, and on the inside 14 iron cloumns, specially cast for the purpose, in Gothic style. The church was decorated in 1894 and six stained-glass windows erected in the sanctuary, and in the same year a new cloakroom and classrooms were added to the school. Three more stained-glass windows and a new organ, the gift of a parishoner, were recently installed. It is under the pastoral care of the Rev. George William Park. A CATHOLIC SCHOOL, built by subscription, and opened in January, 1869, is well attended. Near Plumpton is the base of an old cross.

TOWNSHIP has a considerable village, 3 miles N.E. from Kirkham. It is in the parliamentary division of Blackpool, and in the Fylde county council division and Union. The parish council consists of five members. A cattle fair, of ancient standing, is held here on Trinity Monday and Tuesday. The township has an area of 2,973 acres, and the principal landowners are the Earl of Derby, T. H. Miller, W. G. P. Miller, and the Exors. of Edward Garlick, Esqrs. Population in 1841, 545; 1851, 465; 1861, 465; 1871, 433; 1881, 425; 1891, 378; 1901, 374; and 1911, 370. Rateable value, £7,142. PREESE HALL was the ancient seat of the Skilithorns, and was much damaged by fire in 1732, by which a loss of £1,374 was sustained, and the private chapel destroyed, In 1864 that portion of the mansion which had survived the conflagration, and had been repaired, was pulled down. The site is now occupied by a farm house, and is the property of T. H. Miller, Esq. The CHURCH, dedicated to St. Michael, stands a short distance from the village, and was built in 1843 by subscription, to which the Earl of Derby was a liberal contributor. It was enlarged in 1852, and underwent in 1880 a thorough restoration at a cost of about £450, and a new organ was erected. The church is seated for 296 persons, and 146 of the sittings are free. The benefice is a vicarage, value about £200, in the patronage of the Vicar of Kirkham, and held by the Rev. Robert W. M. Holme, M.A. In 1861 this township was united with Greenhalgh, &c., and the two Plumptons to form an ecclesiastical parish. The NATIONAL SCHOOL was erected in 1845 by subscription and a grant of £30 from the National Society, and it was rebuilt in 1886. It has an endowment of about £8 a year, and the interest of £190 left by Mrs. Dewhurst, of Kirkham. Average attendance, 60 children.

# Newton with Scales

Is a township about 7 miles from Preston, containing 1,244 acres. It is in the Blackpool parliamentary division, and in the Fylde country council division and Union. The principal owners of the soil are the Exors. of Edmund Birley, Esq., Edward Bryning and John Ward, Esqrs. The population in 1851 was 299; 1861, 286; 1871, 292; 1881, 267; 1891, 231; 1901, 229; and 1911, 257. Rateable value, £2,885. The BLUE COAT SCHOOL was founded by John Hornbie, yeoman, Newton, 1707. His object was to clothe, board, and educate the children of the township, afterwards apprenticing them to honest trades and services free of expense to their parents, such children to be brought up in the principles of the Church of England. Of late years the advantages of the school have been modernised and extended to all the children in the parish of Lund; the Vicar of Lund (Rev. C. Fullerton Smith, M.A.) being chairman of the Trustees. Some 32 years ago the old Blue Coat School was approved by the Education Department as fulfilling the requirements of the district as a Church of England public elementary school, and now it is carried on under diocesan and Government inspection by the Trustees, there being at the present 50 children in the school. There is an admirable cookery school in the building, and classes in singing and lectures on horticulture, farriery, &c., are held, and well attended during the year. A parish council has been granted which comprises five members.

# KIRKHAM

THIS is an ancient market town, 8 miles W. from Preston and 11 miles S.S.E. from Blackpool, and in the latter parliamentary division. It is in the Fylde county council division and union, and is governed by a district council of nine members. Considerable improvements have been made here within the last few years, and a good deal of trade is carried on in the town and neighbourhood. The railway station is an important one. The township contains 857 statute acres, and its rateable value is £11,058. Population in 1851, 2,799; 1861, 3,370; 1871, 3,593; 1881, 3,840; 1891, 4,003; 1901, 3,693; and 1911, 3,793.

The CHURCH was conferred by Roger de Poictou on the Abbey of Shrewsbury. It is dedicated to St. Michael, and existed in 1066; but all, except the tower and part of the chancel, was rebuilt in 1825, at a cost of £5,000. The chancel was restored in 1857, and the whole of the interior has been re-seated and the walls ornamented, at a cost of £800. The tower was rebuilt in 1843-4, and, with the spire, is 156 feet high. The windows are lancet-formed, and that in the east end is of stained-glass, presented by the late A. L. Birley, Esq. The lectern is a brass eagle with expanded wings, and is to the memory of the late T. L. Birley, Esq. The church is spacious, being capable of accommodating 1,400 persons, and there are 750 ftree sittings. The benefice is a

rectory, value £600, in the patronage of Christ Church, Oxford, and is held by the Rev. Welbury T. Mitton, M.A. The schoolroom at Wesham, where service was formerly held, having become quite inadequate to supply the spiritual need of the increasing population of this neighbourhood, a new church in Garstang Road, North Wesham, was erected to supply the deficiency. It was named CHRIST CHURCH, and used as a chapel of ease to Kirkham until 1913, when it was made a separate parish. The foundation stone was laid June 30th, 1892, by the late Lady E. C. Clifton, and the church was consecrated by Bishop Moorhouse, September 27th, 1894. The cost of the builidng was £3,350. The structure is of the 14th century style of architecture, and is built of brick, with Runcorn stone dressings, and the roof with red tiles. Provision has been made so that a chancel arch and organ chamber, as well as a square turret, can be added at any future time. The church is seated with open pine benches, and will accommodate 300 persons. The designs were supplied by Messrs. Paley & Austin, of Lancaster. Rev. W. Yates, M.A., is vicar.

The CATHOLIC CHURCH at the Willows is dedicated to St. John the Evangelist, and consists of nave, aisles, chancel, south porch, and a graceful octagonal spire, 110 feet in height, with a peal of six fine-toned bells. On the south side of the chancel is the Lady Chapel, and on the north the Chapel of the Holy Cross. The former contains two elegantly painted windows; and the altar, which is of Caen stone, is most artistically carved. The window in the Chapel of the Holy Cross is also of a very gorgeous description, and is divided into three lights; the centre one contains a full-length figure of St. Helena bearing the true Cross, and the side lights are emblazoned with flaming cherubim holding the emblems of the passion and crucifixion. The high altar, also of Caen stone, is exquisitely sculptured, and the reredos and tabernacle are richly gilt. In 1894 a large gilt statue of St. Peter was placed in the church, and in 1896-7 the church was greatly improved. The floor was lowered and the sanctuary opened out by the removal of a screen. New Stations of the Cross were erected, and new Scaristies added from the designs of Pugin. The church was designed by the elder Pugin, who has left upon it the impress of his great mind, and built by Father Sherburn, who lived at the Willows over 40 years, and died in 1854. It was consecrated April 22nd, 1845, and is capable of accommodating nearly 600 persons. It has superseded the chapel at the Willows, which was built in 1809, the ancient chapel having been at Mowbreck Hall. Very Rev. Monsignor Francis Gillow is the priest in charge of the mission. A plot of ground situated to the south of the Catholic Church was purchased for the sum of £300, and has been converted into a cemetery. It has been walled round, and catacombs have been built in the centre, under the cemetery cross. It is a great addition to the town of Kirkham, and is ornamented with a variety of shrubs, which greatly enhance its beauty. The whole expense incurred was about £1,200. The Catholic population of the pairsh is about 1,000.

A new CONGREGATIONAL CHRUCH, situated in Poulton Street, the foundation stone of which was laid on July 2nd, 1896, was opened

June 19th, 1897. It is a neat building in the Elizabethan style of architecture, and the total cost of the edifice and site was £3,500. This has superseded the old Independent Chapel, first built in 1793, and rebuilt in 1820. Rev. J. S. Langley, minister, The WESLEYANS have also a good chapel here. The CHURCH OF ENGLAND SCHOOLS at Kirkham have been enlarged at a cost of £925; and at the Willows is an ENDOWED CATHOLIC SCHOOL; a new girls' school was added in 1871, so that there is now room for 340 children.

The GRAMMAR SCHOOL is a very old and well-endowed foundation. It dates from 1549, and was a free Grammar School till remodelled by the Endowed Schools' Commissioners in 1880. In 1911 the buildings situated near the Parish Church was superseded by new buildings erected in Rigby Road, at a cost ot £10,000, and are replete with every modern convenience. From endowments and other sources there are scholarships of the annual value of between £200 and £300, and also leaving exhibitions of the Universities and other places of higher education approved of to the Governors. The school is recognised as efficient by the Board of Education. The head master is the Rev. Thos. C. Walton, M.A. Accommodation is provided for 120 pupils, including 24 boarders.

The GASWORKS, erected in Orders Lane, in 1839, and reconstructed in 1882, contain two holders, and the annual consumption of gas is about 14,000,000 cubic feet, and the number of consumers is 650. James Crook, secretary and manager.

The CONSERVATIVE CLUB, has a reading room well supplied with newspapers, &c., and a billiard room. William Benson, secretary.

KIRKHAM SAVINGS BANK, established in 1844, was merged into the Preston Savings Bank in November, 1912. Mr. John Hall is secretary and actuary to this useful institution. THE FYLDE INDUSTRIAL CO-OPERATIVE SOCIETY, LIMITED, Poulton Street, was formed in 1868 at that time the membership was 84; at the end of 1912 it had increased to 762. The LONDON CITY AND MIDLAND BANKING COMPANY, LTD., and the MANCHESTER AND LIVERPOOL DISTRICT BANKING COMPANY have each a branch at Kirkham. PETTY SESSIONS are held at the Court House every third Thursday, and the clerk is Mr. W. J. Dickson, and he is also clerk to the Urban District Council. The COUNTY CONSTABULARY OFFICE is in Freckleton Street.

The GUARDIANS' INSTITUTE, Wesham, for the Fylde Union was built in 1906, at a cost of £50,000. There is accommodation for 320 inmates. This building supersedes the one dating from 1844 which was pulled downand Children's Cottage Homes erected on the site, and is in connection with the Union. Mr. Fred H. Brown is clerk to the Board of Guardians and superintendent registrar. Annual Fairs are held 4th and 5th February, 28th and 29th April, and 18th and 19th October. The largest landowners are the Earl of Derby, J. T. Clifton, Esq., and the Birley family.

# CLAUGHTON.

Is a highly-cultivated and well-wooded township, pleasantly situated on a very gentle undulation, three miles south-east from Garstang. It is in the parliamentary division of Lancaster, and in the county council division and Union of Garstang. The parish council consists of six members. The township is intersected by the old high-road and the railway between Preston and Lancaster, and contains about 3,786 acres, belonging chiefly to William J. Fitzherbert-Brockholes, Esq., C.A. Claughton gave name to a local family, of which Richard de Clackton appears in a deed without date as a benefactor to Cockersand Abbey. CLAUGHTON HALL is a superb mansion, delightfully situated in a handsome park, ornamented with an extensive sheet of water and a profusion of sylvan scenery. The CATHOLIC CHURCH, dedicated to St. Thomas the Apostle, is a neat edifice, and contains three beautiful marble altars, adorned by statuary of the highest merit. In 1871-2 the high altar was adorned with marble statues of saints and angels of great beauty and exquisite workmanship ; at the same time the altar of Our Lady was given by the late T. F. Brockholes, and that of St. Joseph by the late rector, Monisgnor Gradwell, pastor here for 50 years, from 1856, at a cost of nearly £2,000. The windows are set in stone, with granite columns in the centre, and are filled with coloured glass. The organ was the present of the late Very Rev. Henry Gradwell, who died in 1860, after having been 34 years pastor of the congregation. He also erected the chancel in 1835. In 1883 a baptistry and confessional were added to the church. The cemetery was given in 1873 by the late Mr. T. F. Brockholes, who also erected the cemetery cross ; and in 1885 a life-size statue of St. Kentigern was erected here. In 1897 an iron belfry was erected in commemoration of the late Queen's Jubilee. The church is under the pastoral charge of the Rev. Henry Roberts. The present church was built in 1794 by the John Burrow, but a room in the present rector's house was fitted up at a chapel in 1745 ; and the succession of priests can be traced to the time of Charles II. Here are also excellent schools, erected in 1854, at a cost of about £1,200. They are attended by about 90 children children. Population in 1851, 641 ; 1861, 608 ; 1871, 516 ; 1881, 459 ; 1891, 575 ; 1901, 561 ; and 1911, 510. Rateable value, £9,369.

TOWNSHIP contains 974 acres, and the village of CHURCHTOWN, 1½ miles S.W. from Garstang. It is in the parliamentary division of Lancaster, and in the county council division and Union of Garstang. The parish council consists of five members. The soil, except the glebe land,

THE LAUNDRY FOR PRESTONIANS—PRESTON STEAM LAUNDRY.

belongs to the representatives of the late T. B. Cole, Esq. The CHURCH is dedicated to St. Helen. It is a venerable pile, existing from the 12th century, consisting of nave, chancel, aisles, chantry, vestry, and an embattled tower. A number of mutilated figures project along the walls. The interior is lighted and well disposed, and two finely clustered columns on the north side of the choir have a striking appearance. The pulpit, which has much carving, bears the date 1646. In the church is the multilated figure of a priest, and in the churchyard the base of an ancient cross. The chantry, which is handsome, was built in 1522. The ancient families of Butler and Winckley are buried in the church ; and here is a handsome marble monument in memory of Alexander Butler, Esq., who died 6th May, 1819, aged 79 years. The church was rebuilt in 1811, and was restored and renovated in 1867-8 at a cost of about £1,500. In addition to several new painted windows, a magnificent reredos was erected in 1887, to the memory of the late Bishop of Manchester. The living is a vicarage, worth £318 a year, in the gift and in the incumbency of the Rev. John Wilson Pedder, M.A. There are 620 sittings, all free. Previous to the dissolution of the monasteries, this living was impropriated to Cockersand Abbey. The HALL is a fine old building, embosomed in wood, two miles from Garstang. The SCHOOL was endowed in 1778, by the family of Butler, with £521 19s. 7d., increased to £721 19s. 7d. by the legacy of Elizabeth Crombleholme, in 1813. The present school-house was built in 1876, at the sole expense of Edward Moon, Esq., of Liverpool. Population in 1851, 428 ; 1861, 388 ; 1871, 336 ; 1881, 314 ; 1891, 337 ; 1901, 274 ; and 1911, 253. Rateable value, £2,538.

# WOODPLUMPTON.

THIS township has a village of its own name 4½ miles N.W. from Preston, with the hamlets of BARTLE, 3½ miles; CATFORTH, 6 miles; and EAVES, 6½ miles from that town. It is in the Blackpool parliamentary division, in the Amounderness county council division, and in the Preston Union. For parochial government the parish is divided into two wards, viz., Plumpton and Catforth, each returning four members to the parish council. It contains 4,970 acres, mostly the property of Charles F. Birley, Esq., Colonel Biddulph, and Messrs. Stott, Thomas Smith, and Bailey; and its rateable value is £13,368. Population in 1861, 1,462; 1871, 1,284; 1881, 1,239; 1891, 1,184; 1901, 1,208; and 1911, 1,226. The CHURCH, dedicated to St. Anne, existed in 1577, and was rebuilt in 1630. It is a triple-roofed building and consists of nave, chancel, and two side aisles. The chancel window is of stained-glass. There are 450 sittings, all free. The church has recently been restored at a considerable cost, and was re-opened on the 26th May, 1900. The benefice is a vicarage, value £150, in the patronage of the vicar of St. Michaels-on-Wyre, and in the incumbency of the Rev. Ernest Turner Millard. A very good SCHOOL was erected here a few years ago. The CATHOLIC CHAPEL at Cottam, in this township, was erected in 1793, in lieu of an older one which was rebuilt in 1748, the original chapel having been destroyed by a Vandalic mob in 1746. The interior has lately been completely restored and renovated. A Lady chapel and altar have been added, an organ gallery erected, additional windows put in, and a marble high altar has replaced the old wooden one. The church, being cleared of debt, was consecrated by the Right Rev. Dr. Whiteside, Bishop of Liverpool, on October 25th, 1894. The sacred edifice is dedicated to St. Andrew the Apostle, and is under the pastoral care of the Rev. Jph. Walmsley. There is here also a school. At Catforth is another CATHOLIC CHAPEL, dedicated to St. Robert, and erected in 1877, principally through the exertions of the late Bishop of Salford, Dr. Bilsborrow, then the pastor of Newsham Chapel, who likewise provided a school for the children. The Rev. Joseph Rimmer is the present pastor. The WESLEYANS and the PRIMITIVE METHODISTS have each a chapel in the township, the former built in 1819, and the latter in 1863.

THE former, a village 5½ miles W. from Preston, and the latter, a district of dispersed dwellings, 5 miles N.W. from that town, form a township of about 3,044 acres, most of which are in a high state of cultivation. The township is in the parliamentary division of Blackpool, in the Fylde county council division and Union, and the parish council comprises five members. The soil is the property of J. T. Clifton, Esq., by whose family it has been held from remote antiquity. CLIFTON HALL, a fine mansion, built by Thos. Clifton, Esq., is now occupied by Thomas Fair, Esq., and SALWICK HALL is an ancient building, in which there was at one time a Catholic Chapel. This was superseded by that erected in 1801-2 in the neighbouring village of Lea. LUND CHURCH, which stands in a lonely part of the township, has an existence prior to 1517; but the present building only dates from 1825. A tower was added in 1873. There are 300 sittings, 217 of which are free. The Church is dedicated to St. John the Evangelist, and the benefice is a vicarage in the patronage of the Dean and Chapter of Christ Church, Oxford, and is worth £329 a year. It is held by Rev. Chas. F. Smith, M.A., who succeeded the Rev. R. Moore, who held the living from 1820 to 1886. The ecclesiastical parish includes the township of Newton-with-Scales since 1847. About a mile from the village of Newton is a NATIONAL SCHOOL, erected in 1837. It was re-built in 1887 by the late Lady Eleanor Cecily Clifton, and will now accommodate 97 children. The Preston and Wyre Railway runs through the township, and has a station here, five miles from Preston; Population in 1851, 471; 1861, 447; 1871, 447; 1881, 508; 1891, 470; 1901, 413; and 1911, 425; and its rateable value is £8,685.

# FRECKLETON.

THIS township has a large village, pleasantly situated on the north bank of the Ribble, 2½ miles south from Kirkham, and 8 miles west from Preston. It is in the Blackpool parliamentary division, and in the Fylde county council division and Union. The parish council consists of nine members. HOLY TRINITY CHURCH was erected in 1837. It is a plain brick edifice, in the Perpendicular style, and consists of nave and chancel, with a western tower and small spire containing one bell. The east window of stained-glass is to the memory of Mr. Green, and a handsome brass tablet has been erected on the north wall in memory of the late vicar, Rev. Walter Scott. There are 230 sittings, 150 of which are free. The benefice is a vicarage of the annual value of £160, in the patronage of the Dean and Canons of Christ Church, Oxford, Rev. Edward John Hack, vicar. The NATIONAL SCHOOLS were enlarged in 1901, at a cost of £400. The old WESLEYAN CHAPEL, erected in 1840, has been replaced by a very neat edifice, built at a cost of £1,400 on the site of the old building. An organ chamber and a new organ was erected by Wadsworth Bros., of Aberdeen, at a cost of £330. There is sitting accommodation for 300 persons. The PRIMITIVE METHODISTS' new chapel is a neat Gothic building of patent brick, with stone dressings, having a graceful spire. It was designed by Messrs. Mould, of Manchester, and the contractor was Mr. John Gardner of Kirkham. It will seat 266 persons, and the cost of erection was £1,200. The old chapel has been converted into a school. In the village is a FRIENDS' MEETING HOUSE. A School-Chapel dedicated to the Holy Family, recently erected by the Catholics of Freckleton and Warton, was opened on the 30th September, 1899. The building has accommodation for about 250 worshippers, and the cost of erection was over £500. The mission is served by the Rev. Father Roche, Kirkham. A cotton mill gives employment to a considerable number

# GREAT ECCLESTON

TOWNSHIP has a large and pleasant village near the southern bank of the Wyre, 6 miles S.W. from Garstang, and 12 miles N.W. from Preston. The ecclesiastical district also includes Elswick and Larbreck. The township is in the parliamentary division of Lancaster and in the county council division and Union of Garstang. The parish council consists of six members. The principal landowners are Lord Chesham (lord of the manor), Dr. Fisher, and J. A. Parkinson, Esq. The CHURCH, dedicated to St. Anne, stands on the summit of a hill, nearly a mile from the village. It was erected in 1723, and has lately undergone a complete restoration. The whole edifice has been cased with Yorkshire parpoints, the tower raised, a new chancel and vestry added, together with an organ chamber, the old vestry re-arranged as a baptistry, and the church entirely re-seated with open benches and re-decorated. A beautiful stained-glass three-light window was presented by Mr. Hathornthwaite, of Bombay, in memory of his late father, who was for some time vicar of the parish. The cost of the decoration was about £1,000. The church was re-opened on the 12th April, 1885. It contains 350 sittings, of which 120 are free. The benefice is a vicarage, of the annual value of £250, in the patronage of the Vicar of St. Michaels-on-Wyre, and held by the Rev. Robert Shaw. The CATHOLIC CHAPEL is dedicated to St. Mary. The first chapel was situated in the Raikes, about a quarter of a mile from the village. This was superseded by the present school, built in 1780, which served as a chapel until the present edifice was built in 1835. It will seat 450 persons. Rev. Thomas Dawson, pastor. The WESLEYANS and the BAPTISTS have each a small chapel here. The SCHOOL at Copp possesses an endowment, and is attended by about 100 children. A new school, which cost £300, was built in 1895. The population of the township in 1851 was 631 ; 1861, 641 ; 1871, 565 ; 1881, 628 ; 1891

It contains 165 sittings, all of which are free. The benefice is a rectory, of the gross annual value of £300, in the patronage of Sir T. G. F. Hesketh, Bart., and held by the Rev. B. T. Bowker, M.A., who resides in a good rectory house, built in 1865. The NATIONAL SCHOOL, built in 1871, has an average attendance of 155. The PRIMITIVE METHODIST CHAPEL and SSHOOL, erected in 1871, in lieu of the old chapel built in 1843, cost £900, and will seat 300 persons.

# TARLETON.

Is a township and parish containing 5,553 acres, chiefly owned by Lord Lilford and Sir Thomas George Fermor-Hesketh, Bart., It is in the Parliamentary division of Chorley, in the County Council division of Aughton, and in the Ormskirk Union. The Parish Council consists of seven members. The population in 1851 was 1,945; 1861, 1,987; 1871, 1,917; 1881, 1,901; 1891, 1,772; 1901, 1,800; and 1911, 1,997 Rateable value, £12,007. The township contains the villages of Tarleton, Sollom, and Holmes, the former being a respectable village on the western banks of the Douglas, nine miles S.W. from Preston. The CHURCH, dedicated to the Holy Trinity, was opened in June, 1888. It has superseded an older edifice, which dated from 1719. The present structure is a very handsome one, in the Gothic style of architecture, from the designs of Mr. C. A. Bassett Smith, architect, of London, and it serection cost about £6,000, the principal donor being Lord Lilford. There are 434 sittings, all free. The benefice is a rectory and vicarage of the nominal value of £960, in the patronage of the Ven. Archdeacon R. C. Fletcher, M.A., and is held by the Very Rev. C. Canon Cronshaw. At Mere Brow is a NATIONAL SCHOOL, at which service is also held. A handsome SCHOOL has been erected at Tarleton. It is built of stone, and in its architectural feature harmonises with the neighbouring beautiful church, both structures being designed by the same architect. The cost of the building was about £2,700, and there is accommodation for 250 children. It is provided with two playgrounds. The foundation stone was laid by Lady Lilford on Michaelmas Day, 1896, and the school was opened November 13th, 1897. This has superseded the National and Endowed Schools. The latter was founded in 1706 by Mr. Thomas Fleetwood, of Bank Hall. A WESLEYAN CHAPEL was built in 1851; a new chapel, to accommodate 350 persons, was opened July 22nd, 1896, the cost of erection being about £1,400. The WESLEYAN CHAPEL, Holmes, was opened in 1880. It is erected on the site of the old chapel, which was rebuilt in 1832. Cost of erection,

# CROSTON

TOWNSHIP has a considerable village on the banks of the Yarrow, 9 miles from Preston and 7 from Chorley, in the latter Parliamentary division and union, and in the Adlington County Council division. The parish is governed by an Urban District Council, comprising nine members. The Lancashire and Yorkshire line of railway from Preston to Ormskirk has a station here. The population of the Township in 1851 was 1,500 ; 1861, 1,790 ; 1871, 1,518 ; 1881, 1,791 ; 1891, 2,034 ; 1901, 2,131 ; and 1911, 2,001. Its area is 2,162 acres, and rateable value £11673 5s. The CHURCH, dedicated to St. Michael, is an ancient edifice, with tower containing eight bells. A church existed here as early as the reign of William the Conqueror. In 1867 the church was thoroughly restored at a cost of about £3,000 ; a beautiful memorial window, by Messrs. Hardman, was placed at the east end in memory of the Rev. Streynsham Master, 66 years rector, and Elizabeth, his wife. Subsequently two more windows were erected in the south chancel aisle in memory of the sons of the above, the Venerable Archdeacon Robert Mosley Master, and Frances Mary, his wife. Archdeacon Master became rector in 1864, and was, in turn, succeeded by his son, the Rev. Oswald Master, in 1867. There are also windows in remembrance of John Master, Elizabeth Anne Master, and General Robert Augustus

**FOR EVERY DAY IN THE YEAR, 'PHONE. 365. PRESTON STEAMLAUNDRY.**

Master. In the north aisle is a memorial window to several members of the Mosley family, and recently three windows at the west end of the church have been fitted with stained glass in memory of the late Mrs. Fielden, of Witton Park (formerly Miss F. M. Master), and her sisters, Miss Margaret Penelope and Miss Augusta Master, and to Miss Georgina Master, sister of the late rector. In 1883 a new tower clock was erected in lieu of the old one, the gift of Miss Augusta Master, There are 700 sittings, all of which are free. The benefice is a rectory, of the annual value of £1,141, in the patronage of the Rev. A. Master Whittaker, M.A., whose brother, the Rev. Oswald Master, M.A., resigned the living in 1894 under the Clergy Resignation Act, and was succeeded by the Right Rev. Atherton G. Rawstorne, D.D., and patron af the living Suffringan, Bishop of Whalley and present rector. A beautiful CATHOLIC CHAPEL stands in Croston hall grounds, erected in 1859 by the late J. R. de Trafford, Esq., and designed by Pugin. It is a good specimen of the Decorated English style of the 13th century. The WESLEYAN CHAPEL, erected in 1881, at a cost of £1,300, is a neat building, having accommodation for 300 persons. The UNITED METHODISTS have also a chapel in the village. The NATIONAL SCHOOLS were rebuilt and enlarged in 1871, and the girls' school was further enlarged in 1884; and in 1885 the boys' school was enlarged by the addition of a classroom; 390 children are in attendance. PETTY SESSIONS are held at the Court House the second Wednesday of each month. The annual Cattle Fair is held on the Monday before Shrove Tuesday, and the Wakes on the Monday nearest the Feast of St. Michael. The village is lighted with gas. The works, which were established in 1862, are owned by the local authority.

Has a village of its own name, six miles from Chorley, and nine from Preston. The township, which is in the parliamentary division and union of Chorley, and county council division of Adlington, comprises an area of 2,045 acres, and its population in 1851 was 671; 1861, 965; 1871, 953; 1881, 900; 1891, 980; and 1911, 1,300. Rateable value, £6,013 5s. The parish council consists of six members. A cotton mill, in the village, employs about 300 persons. The CHURCH, dedicated to St. Mary, is a venerable edifice, built of red sandstone. The present building dates from 1640, but a church existed here in 1182; and amongst the churches granted by Roger de Poictou to the Abbey of Sees was that of Eccleston. The whole of the interior was restored in 1869-70, at a cost of £3,000. It consists of nave, aisles, and chancel, with a tower containing six bells. There are 350 sittings, all of which are free. The benefice is a rectory, of the annual value of £835, in the patronage of W. Bretherton, Esq., and held by the Rev. Thos. A. Walton M.A. The WESLEYAN CHAPEL erected in 1900, at a cost of £2,300, is a neat stone building, with accommodation for 350 worshippers. It replaces an older building erected in 1863. In 1627, the Rev. Adam Rigbye, rector of Eccleston, left in rents £20 a year, to be given to the poor of the parish. The NATIONAL SCHOOL, rebuilt in 1873, at a cost of about £850, is attended by 210 children.

TOWNSHIP is in the parliamentary division of Chorley, in the county council division of Aughton, and in the Ormskirk Union. The VILLAGE is 5 miles N.N.E. from Ormskirk, and a fair is held here annually on the 13th of May. The parish council consists of six members. The CHURCH, dedicated to the Blessed Virgin, was rebuilt by a brief, in 1735, at a cost of £1,165, and again in 1869, at a cost of about £3,000; but "the chapel of St. Mary of Rufford" was in existence about five centuries ago, when Sir Robert Heskiath founded a chantry here. On the north side of the family pew of the Hesketh's is a venerable marble slab, on which are the full length figures of a knight and his lady; and a marble tablet, affixed to the north wall, records the death of Sir Thomas Hesketh, Bart., who died March 4th, 1778. The church contains 500 sittings, all being free. The living is a rectory, of the annual value of £300, in the gift of Captain Le Gendre N. Starkie, and held by the Rev. Henry H. Hall, B.A. In 1824 the late Sir T. D. Hesketh, Bart., erected a School here for the poor children of the parish. The OLD HALL is of the time of Elizabeth, and many of its rooms are panelled and ornamented with carved figures and foliage. RUFFORD NEW HALL, the property of Sir Thomas George Fermor Hesketh, Bart., the lord of the manor, and owner of the soil, is an elegant mansion, erected in 1798 by Sir T. D. Hesketh of that date. It stands in an extensive and well-wooded park, and the east front has a portico of four Ionic columns. Population of Rufford in 1801, 1,853; 1821, 1,073; 1841, 866; 1861, 865; 1871, 819; 1881, 905; 1891, 816; 1901, 782; and 1911, 797. Rateable value, £6,444 5s., and acreage, 3,120. # EUXTON

Is a township containing several scattered houses and a village of its own name, 2½ miles N.N.W. of Chorley, and 7 miles S. of Preston. It is in the parliamentary division of Chorley, the county council division of Adlington, and in the Chorley Union. The parish council consists of seven members. It contains 2,849 acres, and its population in 1851 was 1,631; 1861, 1,491; 1871, 1,182; 1881, 1,147; 1891, 1,167; and 1901, 1,160. The rateable value is £12,836. The principal owners of the soil are W. A. I. Anderton, Esq. (lord of the manor). R. A. Tatton, Esq., and the Crosse family. The Lancashire and Yorkshire and the London and North-Western Railway Companies have each a station in the township. The CHURCH is very ancient, as it was built in the 14th century by Sir William Molyneux, then lord of the manor. It was rebuilt in 1724. The east window is of beautiful stained-glass, erected to the memory of the late Mrs. Bretherton, of Runshaw Hall, by the Rev. H. W. Bretherton and family The sittings are 254, all of which are free. The benefice is a vicarage, of the annual value of £160, and is held by the Rev. Henry J. G. Beloe. The present CATHOLIC CHURCH is the successor to an old chapel which adjoined Euxton Hall. The new church, as the old one, is dedicated to the Blessed Virgin, and was opened on the 29th October, 1685. The site was given by the late George Garstang, Esq.; and William Ince Anderton, Esq., presented £1,000. The building, which is of stone, was designed by E. W. Pugin, Esq., and consists of nave, aisles, chancel, and two transepts; and a small tower and spire grace the western end. A beautiful high altar of marble was erected in 1888, and in the same year a reredos of oak, exquisitely carved, was erected. The church will accommodate about 500 persons, and the pastor is the Rev. Thomas Keeley. A good presbytery adjoins the church, and excellent schools have also been built, which were enlarged in 1888. EUXTON HALL, the property of W. A. I. Anderton, Esq., is a handsome mansion, situated in a park of upwards of 100 acres. A public clock which is placed in a tower at the presbytery, was presented to the township by W. M. I. Anderton,, Esq., on the coming of age of his eldest son, W. A. I. Anderton, December 22nd, 1876.

# LEYLAND

THIS township has a large and respectable village near the Leyland Station, on the London and North-Western Railway, six miles south from Preston. It is in the parliamentary division and Union of Chorley. and is the head of a county council division. The townships included in the division are Leyland, Hoghton, Withnell, Wheelton, Brindle, Whittle-le-Woods, Clayton-le-Woods, Cuerden, Bretherton, and Ulnes Walton. Numerous houses have been erected here within recent years, so that the place represents rather the appearance of a town than a village. There are several works carried on, including cotton manufacturing and bleaching, motor works, rubber works, and machine works. The bleaching works belong to the firm of J. Stanning & Sons, Ltd., and rank among the finest bleach works in the country. The East Lancashire line of railway has a station at Midge Hall. WORDEN, the property of the ffarington family, was partly rebuilt in 1840 by James ffarington, Esq. It stands in a well-wooded park, and contains many natural curiosities and ancient paintings, and its gardens and pleasure grounds are very beautiful. Population in 1801, 2,088; 1821, 2,173; 1841, 3,569; 1851, 3,617; 1861, 3,775; 1871, 3,839; 1881, 4,961; 1891, 5.972; 1901, 6,865; and 1911, 8,090. The township contains 3,725 acres, and its rateable value is £43,393 10s. To commemorate the late Queen's Jubilee, a handsome fountain was erected in the centre of the village in 1887. ST. ANDREW'S CHURCH is a venerable fabric, and consists of nave, aisles, chancel, tower, and a family chapel of the ffaringtons of Worden. A church stood here in 1090, and some stones of Norman work are still preserved. The existing chancel probably dates from the late 13th or the 14th century. The fine perpendicular tower was built about 1500. The mediæval nave was rebuilt in 1816 and already requires re-roofing. In 1876 the chancel and tower were restored, and the body of the church re-seated. The cost of the alterations amounted to £3,000. It will accommodate 1,200 persons. Several of the windows are of stained-glass, and a fine organ was presented to the church in 1876 by the late John Morrell, Esq. A handsome reredos screen was presented in 1888 by a former Vicar, the Rev. T. R. Baldwin. The tower contains a peal of eight bells, two being added to commemorate the late Queen's Diamond

Jubilee in 1897. The benefice is a vicarage, value £850. It is in the patronage of the representative of the late Colonel Robert Baldwin, and held by the Rev. Francis Hutchinson, M.A. ST. JAMES' CHURCH was erected in 1855 by the late Mrs. ffarington, and stands about a mile and a half west of the village. It consists of nave, two side aisles, and a handsome spire, and has accommodation for 500 people, with 250 free sittings, and there is a peal of six bells. In the church is a very beautiful recumbent figure, in Carrara marble, of the late Mrs. ffarington, executed in a most artistic manner by Hutchinson, of Edinburgh. The benefice is a vicarage, value £258, in the gift of the trustees of the will of Miss S. M. ffarington, and held by the Rev. Charles E. Fynes-Clinton, M.A. To supply the necessities of the growing population in the north-east portion of the parish, a church was erected in 1885. It is dedicated to ST. AMBROSE, and the style of architecture is an adaptation of early Gothic. It consists of nave, aisles, chancel, vestries, and baptistry. The designs were supplied by Messrs. Aldridge and Deacon, of Liverpool, and the foundation stone was laid on April 18th,1882, by the late Major-General R. J. Feilden, C.M.G., M.P., the cost of erection being about £5,000. It has accommodation for 460 persons. Rev. Arthur Evington M.A., vicar. MOSS SIDE SCHOOL, founded in 1770 by Samuel Crook, was re-built in 1856 by the late Miss ffarington. A ROMAN CATHOLIC MISSION was established at Leyland in 1845. The present commodious chapel was erected in 1854, and is dedicated to the Blessed Virgin. It will accommodate 300 persons, and is under the pastoral care of the Rev. John Philip Wilson, O.S.B. The CATHOLIC SCHOOL, Towngate, has accommodation for 258 children. It was built in 1807 at a cost of about £1,100, and has superseded the old school, built in 1879. The WESLEYAN METHODISTS have built a chapel in Turpin Green Lane in lieu of their old one at Golden Hill, which was erected in 1814. It was opened September, 1876, and the cost of its erection, &c., was about £3,000. Near to it is a school previously erected. This body have another CHAPEL at Midge Hall ; and the PRIMITIVE METHODISTS have a place of worship in Leyland Lane, built in 1896. A CONGREGATIONAL CHURCH, in the Early English style, with a tower 80 feet high, was erected in Hough Lane in 1877, at a cost, including fittings, of about £4,600. It will seat 450 persons. There is also a commodious Sunday School. The present pastor is the Rev. N. G. Rew. The parish is under the Local Government Act, 1894, and has an Urban District Council of twelve members. The LEYLAND AND FARINGTON GAS COMPANY was incorporated by special Act of Parliament in 1863, since which time the town has rapidly developed. At present there are two holders, with a capacity for holding 300,000 cubic feet of gas. BALSHAW'S SCHOOL, founded 1782, new buildings opened 1904, is a Secondary School for boys and girls. Clerk, T. Dodd, Esq., Lune Street, Preston. Roll, 90 boys, 80 girls. The founder, Mr. Richard Balshaw, of Leyland, died in 1811. There is at Leyland a well-attended NATIONAL SCHOOL ; and at Earnshaw Bridge is ST. JOHN'S SCHOOL, built in 1897 at a cost of £1,200, with accommodation for 100 children. The PUBLIC

HALL, built in 1899, at a cost of £4,000, is a very handsome building. The assembly room, with spring floor for dancing, is 70 feet by 36 feet, and, with ante-rooms, comprises the upper storey. The ground floor is used as bank premises and the offices of Urban District Council. FARINGTON'S ALMSHOUSES, founded 1607 by William Farington, for six poor persons, was removed some years ago by the Misses ffarington from their original site in the village to a more healthy situation in Fox Lane; and in 1870 six more almshouses were erected, out of Osbaldeston's Charity, in Fox Lane, instead of the old ones in Cow Lane; in 1884 two handsome houses were erected in Towngate. Petty Sessions are held at the Police Station and Court House, erected in 1882. WADE BROOK BRIDGE was rebuilt in 1880, of stone, at a cost of over £400.

# BLEASDALE

Is a township and chapelry in the parliamentary division of Lancaster, and in the Union and county council division of Garstang, its post town, from which it is distant about seven miles, being 12 miles S.S.E. from Lancaster, and 13 miles N.E. from Preston. The parish council consists of five members. The township contains several dispersed dwellings, and the hamlet of OAKENCLOUGH, three miles from the church. It comprises an area of 7,278 acres, and was once a royal forest, attached to the Duchy of Lancaster. There are about 3,000 acres enclosed ; the chief part, if not the whole of the remainder, being wild moors or fells, well stocked with grouse, and depastured by flocks of black or piebald sheep. The rivers Brock and Calder, also the small stream of Griesdale beck, now appropriated as a water supply to the Fylde district, all take their rise in these fells. The water is pure, and the springs are not likely to fail. At Oakenclough is a peper mill, now worked by Mr. Harold Jackson. BLEASDALE TOWER, the property of William Garnett, Esq., is a delightfully-situated mansion, erected in 1831. It is at present occupied by Maurice Lees, Esq., as a shooting box. BLEASDALE CHURCH, dedicated to St. Eadmor, was rebuilt in 1835 on the site of the ancient fabric, which had existed before the year 1577. It was restored in 1898 at a cost of about £700. The alterations including the re-seating of the church and the erection of new chancel with organ chamber, which extends beyond the site of the old chancel. The church consists of nave, chancel, porch, and square tower, in which is one bell. In the east end is a modern stained-glass window, and in the interior is a font designed as a memorial to the Rev. Wm. Fenton, a former incumbent. There are 250 sittings, of which 149 are free. In 1702 Christopher Parkinson left a messuage and lands for the minister, schoolmaster, and poor of Bleasdale. The benefice is a vicarage, of the annual value of about £180, with a good residence and 34 acres of glebe. It is in the gift of the Vicar of Lancaster, and at present held by the Rev. John F. H. Parker. The NATIONAL SCHOOL, built by subscription, is near the church, and it possesses every necessary requirement. There are about 40 children in attendance. The charities of

Bleasdale amount to over £70 a year, including a yearly endowment of £22 for the National School. The rateable value of the township is £4,137. The population in 1851, was 295; 1861, 372; 1871, 376; 1881, 410; 1891, 402; 1901, 403; and 1911, 265.

# PILLING

Is an extensive and highly-interesting township stretching from 3½ to 10 miles N.W. from Garstang, and containing 6,003 statute acres, belonging to a number of owners, many of whom are resident yeomen. The Hornby and Elletson families are the largest proprietors, and are lords of the manor. It is in the parliamentary division of Lancaster and county council division and Union of Garstang. The parish council comprises seven members. The village of Pilling is six miles from Garstang, and five from Fleetwood. The CHURCH is dedicated to St. John the Baptist. The original edifice stood some distance from the village, but was in existence in the 15th century, but in 1721 it was rebuilt nearer to the village. This was superseded by a handsome Gothic structure, completed in 1887, at a cost of £7,000, including tower and spire, 125 feet high. Two stained-glass windows were recently erected to the memory of the late Mrs. Gardner, of Fluke Hall. The church contains 450 sittings, of which 280 are free. Messrs. Paley & Austin supplied the designs for the structure. The benefice is

a vicarage, worth £300 a year, in the patronage of the lords of the manor alternately, and held by the Rev. Thomas Pearson, M.A. The WESLEYAN CHAPEL, built in 1813, has been replaced by a more commodious building. The National School has an endowment of £20 a year. It was rebuilt in 1856, at a cost of £1,300. There is at the hamlet of EAGLAND HILL, four miles from the village, a mixed school, attended by about 60 children, and here is also a mission room, capable of holding about 150 people. Some years ago, a site for a CATHOLIC CHURCH was purchased and given by the late Mr. Joseph Smith, of Lancaster. The foundation stone was laid on July 9th, 1890, and the church, presbytery, and schools were completed by the end of August, 1891. The church was solemnly opened on September 2nd. It is dedicated to St. William, Archbishop of York, and is a plain Gothic structure, built of Ruabon brick and stone. It will accommodate 150 worshippers. The architects were Messrs. Sinnott, Sinnott, & Powell, Liverpool. The Rev. Thos. Verity is pastor of the mission. The school has accommodation for 69 scholars. Population of the township in 1851, 1,281; 1861, 1,388; 1871, 1,572; 1881, 1,620; 1891, 1,480; 1901, 1,407; and 1911, 1,390. Rateable value, £9,438.
